Recalling also its decision 2005/221 of 6 July 2005, in which it decided to consider, during the coordination segment of the substantive session in 2006, the theme “Sustained economic growth for social development, including the eradication of poverty and hunger”,

Recognizing that eradication of hunger and poverty is a fundamental objective that must be at the centre of integral development initiatives and programmes of the United Nations system, including those aimed at the achievement of internationally agreed development goals, including the Millennium Development Goals,

Recalling the outcomes of the major United Nations conferences and summits in the economic, social and related fields, and recognizing the vital role played by these conferences and summits in shaping broad development visions and in identifying commonly agreed objectives,

1. *Urges* the United Nations system to enhance its assistance to developing countries, upon their request, in facilitating the realization of the internationally agreed development goals, including the Millennium Development Goals, and efforts towards the eradication of poverty and hunger through comprehensive and multidimensional approaches;

2. *Requests* the United Nations system to conduct common country assessments and the United Nations Development Assistance Framework processes under the leadership of national Governments in such a way as to optimize their harmonization and alignment with national development strategies and priorities as well as efforts to improve the support for national development priorities and policies, and stresses that full national ownership, participation and leadership are required at all stages of those processes;

3. *Recognizes* the need to improve understanding of the complex interlinkages between economic growth and social development, and requests the Secretary-General to encourage the organizations and bodies of the United Nations system, with the involvement of all stakeholders, where relevant, to undertake studies and analytical work at all levels on the social impact of the realization of the internationally agreed development goals, including the Millennium Development Goals;

4. *Invites* the regional commissions, in cooperation with other entities of the United Nations system, regional organizations and other regional processes, where appropriate, to further contribute, within their respective mandates, to the implementation and review of the outcomes of the major United Nations conferences and summits in the economic, social and related fields, including, inter

alia, sustained economic growth for social development, including the eradication of poverty and hunger;

5. *Requests* the Secretary-General, in his capacity as the Chairman of the United Nations System Chief Executives Board for Coordination, to encourage the organizations and bodies of the United Nations system, within their respective mandates, to review their current approaches in the area of economic growth and social development in order to effectively address and facilitate the realization of the internationally agreed development goals, including the Millennium Development Goals; in this regard underlines the need for exchange of experiences and the application, where appropriate, of relevant lessons learned; and in this context, requests that these be brought to the attention of Member States and the relevant governing bodies.

2006/5 Strengthening of the coordination of emergency humanitarian assistance of the United Nations

The Economic and Social Council,

Reaffirming General Assembly resolution 46/182 of 19 December 1991 and the guiding principles contained in the annex thereto, and recalling other relevant General Assembly and Economic and Social Council resolutions and agreed conclusions of the Council,

Welcoming the fact that at the humanitarian affairs segment of its substantive session of 2006, the Economic and Social Council considered the theme “Strengthening of the coordination of United Nations humanitarian assistance: implementing improved humanitarian response at all levels, including strengthening capacity, with particular attention to recent humanitarian emergencies including severe natural disasters”,

Welcoming also the fact that the Economic and Social Council held panels on gender-based violence in humanitarian emergencies and chronically underfunded emergencies,

Recognizing the clear relationship between emergency, rehabilitation, and development and that, in order to ensure a smooth transition from relief to rehabilitation and development, emergency assistance must be provided in ways that will be supportive of recovery and long-term development, and that emergency measures should be seen as a step towards long-term development,

Recalling the Hyogo Declaration¹ and the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters,² as adopted at the World Conference on Disaster Reduction, held in Kobe, Hyogo, Japan, from 18 to 22 January 2005,

¹ A/CONF.206/6 and Corr.1, chap. I, resolution 1.

² *Ibid.*, resolution 2.

1. *Takes note* of the report of the Secretary-General;³
2. *Also takes note* of the reports of the Secretary-General on humanitarian assistance and rehabilitation for El Salvador and Guatemala,⁴ on strengthening emergency relief, rehabilitation, reconstruction and prevention in the aftermath of the South Asian earthquake disaster — Pakistan,⁵ and on strengthening emergency relief, rehabilitation, reconstruction, recovery and prevention in the aftermath of the Indian Ocean tsunami disaster;⁶
3. *Requests* the Secretary-General to encourage the relevant organizations of the United Nations system to continue to identify and use, as appropriate and available, local resources and expertise from within the affected country and/or its neighbours in response to humanitarian needs;
4. *Encourages* Member States to continue their efforts in preparedness and disaster risk reduction, and encourages the international community and relevant United Nations entities, within their respective mandates, to support national efforts in this regard;
5. *Requests* the relevant organizations of the United Nations system to continue to engage systematically with relevant authorities and organizations at the regional and national levels to support efforts to strengthen humanitarian response capacities at all levels, in particular through preparedness programmes, with a view to improving the overall adequacy of the deployment of resources;
6. *Stresses* that the United Nations system should make efforts to enhance existing humanitarian capacities, knowledge and institutions, including, as appropriate, through the transfer of technology and expertise to developing countries;

2006/6 Strengthening statistical capacity

The Economic and Social Council,

Deeply concerned that (a) there still exists in many countries a lack of adequate data to (i) assess national trends in the context of monitoring progress towards the realization of all the internationally agreed development goals,

including the Millennium Development Goals, and (ii) inform and monitor the implementation of national development policies and strategies, and (b) in many countries where data do exist, there is lack of capacity to use them and, in certain cases where country data are available, they are not used to the extent possible,

Affirming that without a coordinated effort to enhance and sustain statistical capability in many developing countries and countries with economies in transition, effective monitoring of progress towards national as well as internationally agreed development goals, including the Millennium Development Goals, is being compromised,

Recognizing the fundamental importance of sustainable national statistical capacity to produce reliable and timely indicators of a country's progress,

Expressing its concern about the validity of the use by international agencies of imputed data, particularly when there is a lack of transparency in their methodology,

Recalling its resolution 2000/27 of 28 July 2000, in which it reaffirmed the importance of national efforts to build statistical capacity in all countries, including through statistical training, and of effective international support in this context for developing countries and countries with economies in transition,

Further recalling its resolution 2005/13 of 22 July 2005, in which it noted the critical importance of the 2010 round of population and housing censuses for meeting data needs for the follow-up activities to the international conferences and summits, including the Millennium Summit,

Stressing that all review and follow-up processes of the major United Nations conferences and summits in the economic, social and related fields must focus on the progress made in the implementation of commitments,

Reiterating the need for continued efforts by the Statistical Commission to further improve the list of indicators on implementation of the outcomes of the major United Nations conferences and summits in the economic, social and related fields, including by means of methodological and technical refinement of the existing indicators,

Further reiterating the need to apply and further develop indicators on means of implementation to evaluate progress towards conference goals in creating an enabling environment for development,

1. *Calls upon* Member States to intensify their efforts to strengthen national statistical capacity in order to produce reliable and timely statistics and indicators for the monitoring of:

(i) National development policies and strategies;

(ii) The implementation of commitments and the achievement of all development goals at the national, regional and international levels;

2. *Calls upon* the United Nations system, including the United Nations Statistics Division and the regional commissions and international agencies to support national efforts in building and strengthening national statistical capacity, in particular of developing countries;

3. *Encourages* the strengthening of statistical capacity of the relevant international agencies;

4. *Urges* donor countries and organizations and the international and regional statistical community to support developing countries and countries with economies in transition in strengthening statistical capacity in support of development. They should largely build upon existing national, regional and international initiatives in a coordinated manner and encourage other initiatives to address significant gaps that might emerge;

5. *Calls upon* all international agencies, through the Inter-Agency and Expert Group on Millennium Development Goals Indicators, under the coordination of the United Nations Statistics Division and in accordance with the guidance provided by Member States through the Statistical Commission, to improve the coverage, transparency, and reporting on all indicators in order to enhance the database on all Millennium Development Goals, including through:

(a) Defining priorities and developing a strategy to improve data for all indicators;

(b) Identifying ways, including through capacity-building where needed to improve countries' reporting on all Millennium Development Goals;

(c) Avoiding imputation unless specific country data are available for reliable imputations following consultations with concerned countries and through transparent methodologies;

(d) Ensuring that the supporting metadata comply with guidelines developed by an expert panel constituted by the Statistical Commission for that purpose, and in this regard requests the Secretariat to forward recommendations to the Statistical Commission for consideration and adoption;

6. *Requests* the Secretary-General to report on the implementation of the present resolution in the context of the regular report on statistical capacity-building to be presented under the relevant agenda item for discussion by the Statistical Commission at its thirty-eighth session.

2006/14

Progress in the implementation of General Assembly resolution 59/250 on the triennial comprehensive policy review of operational activities for development of the United Nations system

The Economic and Social Council,

Recalling General Assembly resolution 59/250 of 22 December 2004 on the triennial comprehensive policy review of operational activities for development of the United Nations system,

Recalling also its resolution 2005/7 of 20 July 2005,

Emphasizing the importance of the triennial comprehensive policy review of operational activities for development, through which the General Assembly establishes key system-wide policy orientations for the development cooperation country-level modalities of the United Nations system,

Reaffirming its role in providing coordination and guidance to the United Nations development system to ensure that those policy orientations are implemented on a system-wide basis, in accordance with General Assembly resolutions 48/162 of 20 December 1993, 50/227 of 24 May 1996 and 57/270 B of 23 June 2003,

Reaffirming also that the fundamental characteristics of operational activities for development of the United Nations system should be, inter alia, their universal, voluntary and grant-based nature, their neutrality and their multilateralism, as well as their ability to respond to the development needs of recipient countries in a flexible manner, and that operational activities are carried out for the benefit of recipient countries, at the request of those countries and in accordance with their own policies and priorities for development,

Stressing that the purpose of reform is to make the United Nations development system more efficient and effective in supporting developing countries in their efforts to achieve the internationally agreed development goals, on the basis of their national development strategies, and stressing also that reform should enhance organizational efficiency and achieve concrete development results,

Emphasizing that operational activities for development of the United Nations system should be valued and assessed on the basis of their impact on recipient countries as contributions to enhance their capacity to pursue poverty eradication, sustained economic growth and sustainable development,

1. *Takes note* of the report of the Secretary-General;³²

Funding of operational activities for development of the United Nations system

2. *Also takes note* of the report of the Secretary-General on the funding options and modalities for financing operational activities for development of the United Nations system;³³

3. *Recognizes* the importance of further considering funding options and modalities for financing the operational activities for development of the United Nations system, with the aim of generating, on a voluntary basis, adequate resources including core resources, and increasing the reliability and predictability thereof to achieve the internationally agreed development goals, including the Millennium Development Goals;

4. *Stresses* that increased funding to achieve the internationally agreed development goals, including the Millennium Development Goals, should be combined with higher quality and better delivery of aid, simplified and harmonized operational processes, reduced transactions costs, more effective use of resources and enhanced national ownership;

5. *Emphasizes* that increasing financial contributions to the United Nations development system is key to achieving the Millennium Development Goals, and in that regard recognizes the mutually reinforcing links between increased effectiveness, efficiency and coherence of the United Nations development system, achieving concrete results in assisting developing countries in eradicating poverty and achieving sustained economic growth and sustainable development through operational activities for development and the overall resourcing of the United Nations development system;

6. *Stresses* that core resources, because of their untied nature, continue to be the bedrock of the operational activities for development of the United Nations

³² E/2006/58.

³³ A/60/83-E/2005/72.

system, and in that regard notes that the overall increase in core resources has not been sustained and that the overall volume of core resources fell in 2004 in some parts of the system, and also notes that some targets of the multi-year funding frameworks and strategies of the United Nations funds and programmes and the specialized agencies have not been met;

7. *Notes* that the increased use of restrictively earmarked non-core resources reduces the influence of the governing bodies and can lead to the fragmentation of operational activities for development of the United Nations system and can thus constrain their effectiveness;

8. *Also notes* the establishment of the thematic trust funds linked to agency-specific funding frameworks and strategies established by the respective governing bodies as a funding modality complementary to core resources, while recognizing that non-core resources are not a substitute for core resources and that unearmarked contributions are vital for the coherence and harmonization of the operational activities for development;

9. *Requests* the Secretary-General, in consultation with the United Nations Development Group, to provide, in view of the preparations of the 2007 triennial comprehensive policy review, a consolidated overview of the biennial costs of the resident coordinator function and its current funding mechanisms;

10. *Takes note* of the report of the Secretary-General on the comprehensive statistical data on operational activities for development for 2004³⁴ as well as the note by the Secretary-General on the review of trends and perspectives in funding for development cooperation;³⁵

11. *Requests* the Secretary-General, in order to enhance understanding of funding trends in the United Nations development system and humanitarian field, to further refine data contained in that report, with a view to promoting a concerted effort by entities of the United Nations system to standardize data and statistical practices that reflect funding for operational activities for development, including a better distinction between funding for humanitarian assistance and for long-term development cooperation channelled through the funds, programmes and specialized agencies of the United Nations system and the United Nations Secretariat, in collaboration with organizations repository of relevant information and statistics, as appropriate;

12. *Notes* the importance of enhancing the predictability, sustainability and increase of funding and in this context notes the introduction by most United Nations funds, programmes and organizations of multi-year funding frameworks and strategies and requests the Secretary-General in view of the 2007 triennial comprehensive policy review, to provide information on the status of the use, efficiency and harmonization of those instruments;

National capacity-building

13. *Stresses* that developing countries, in their efforts to meet the internationally agreed development goals, including the Millennium Development Goals, should be supported by the United Nations system in the development and

³⁴ A/61/77-E/2006/59.

³⁵ E/2006/60.

enhancement of their national capacities consistent with their needs, with the aim of strengthening national ownership and leadership over external assistance and aid coordination in support of their national development strategies, including further strengthening of their capacity to utilize effectively the various aid modalities, including system-wide approaches and budget support;

14. *Also stresses* the need for a systematic and comprehensive United Nations capacity-building effort that would support the preparation and implementation of national development strategies, which should benefit from strengthened linkages between the normative work of the United Nations system and its operational activities;

15. *Notes* the establishment of a United Nations Development Group working group on capacity development and in this regard looks forward to the improvements in the effectiveness of United Nations country teams in enhancing capacity-building and national ownership of the development process by developing countries, while expressing concern about the poor quality of reporting by the United Nations system on measures and results of the efforts to address the sustainability of capacity-building, relating in particular to the use of national execution, national expertise and technologies, and in that regard requests the Secretary-General to report on progress made using existing reporting mechanisms;

16. *Reiterates* that the United Nations development system should use, to the fullest extent possible, national execution and available national expertise and technologies as the norm in the implementation of operational activities and in this context notes the decisions by some governing bodies of the United Nations funds and programmes to strengthen the implementation modalities of national execution;

17. *Notes* the various activities undertaken by the United Nations development system to strengthen capacity-building of developing countries, but recognizes that developing countries, in order to meet the internationally agreed development goals, including the Millennium Development Goals, should have access to new and emerging technologies, including information and communication technologies, which requires technology transfer, technical cooperation and the building and nurturing of scientific and technological capacity to participate in the development and adaptation of these technologies to local conditions, and in that regard urges Member States and the United Nations system to ensure the promotion and transfer of new and emerging technologies to developing countries;

Transaction costs and efficiency

18. *Also notes* the efforts of the funds, programmes and specialized agencies of the United Nations system to examine ways to further simplify their rules and procedures and, in that context, to accord the issue of simplification and harmonization high priority, and further notes the steps taken, including: the promotion of common shared support services including the development of banking, administrative and financial procedures; the agreement by the United Nations System Chief Executives Board for Coordination on harmonized definitions and principles for cost recovery; and the establishment of the first joint office pilots and various hosting arrangements for non-resident agencies and agencies that have smaller programmes by resident agencies, consistent with their respective mandates;

19. *Encourages* the funds, programmes and specialized agencies of the United Nations system to step up their efforts, in consultation with national Governments and in accordance with their developments needs and priorities, to, inter alia, rationalize their country presence through common premises and co-location, further implement the joint office model, where appropriate, expand common shared support services, including security, information technology, telecommunications, travel, banking and administrative and financial procedures including for procurement, harmonization of the principles of cost-recovery policies, including that of full cost recovery, and alignment of the regional technical support structures and regional bureaux at headquarters level, including their regional coverage, as well as further simplification and harmonization measures, and to continue to monitor and assess experiences undergone and lessons learned;

Common country assessment/United Nations Development Assistance Framework

20. *Welcomes* the efforts made so far by the United Nations system in the use of the common country assessment and the United Nations Development Assistance Framework in order to achieve greater country-level programmatic coherence within the system in alignment with national priorities and to foster teamwork among the organizations of the system;

21. *Encourages* the United Nations development system to foster a more inclusive approach to assisting developing countries in obtaining information about and better access to the expertise and services available within the system, in particular in non-resident agencies, and in that regard calls for the strengthening and effective use of arrangements such as system-wide knowledge management;

22. *Recognizes* that resident coordinators, in meeting their obligation to ensure effective and efficient coordination of operational activities, have the responsibility to inform, in regular consultation with national Governments, the relevant United Nations organizations, funds and programmes of existing opportunities consistent with their respective mandates for their possible participation in country-level development processes;

23. *Notes* the progress made in developing simplified programming processes and tools and the efforts to enhance the capacity of United Nations country teams to develop strategically focused, demand-driven and results-based joint programmes, aligned with national priorities, and, in that regard, encourages assessment of experiences and lessons learned;

24. *Invites* the United Nations system and the Bretton Woods institutions to continue to explore ways to enhance their dialogue and, in full accordance with the priorities of recipient country Governments, to ensure greater consistency between their strategic frameworks used at the country level;

Resident coordinator system

25. *Reaffirms* that the resident coordinator system, within the framework of national ownership, has a key role to play in the effective and efficient functioning of the United Nations system at the country level, including in the formulation of the common country assessment and the United Nations Development Assistance Framework, and is a key instrument for the efficient and effective coordination of

the operational activities for development of the United Nations system, and requests the United Nations system, including the funds and programmes, the specialized agencies and the Secretariat, to enhance support to the resident coordinator system;

26. *Takes note* in that regard of reporting on the improved training provided to the resident coordinators, and urges continued consideration of these and other proposals on support to the resident coordinator system;

27. *Calls for* an acceleration of the development and implementation of a comprehensive accountability framework for resident coordinators, as well as performance appraisal tools and procedures for resident coordinators;

28. *Reiterates* the need to ensure the functioning of the resident coordinator system in a participatory, collegial and accountable manner;

Country-level capacity of the United Nations system

29. *Also reiterates* the need for the range and level of skills and expertise assembled by the United Nations system at the country level to be commensurate with that needed to deliver on the priorities specified in each country's United Nations Development Assistance Framework, in line with the national development strategies and plans, including poverty reduction strategy papers where they exist, and to correspond to the technical backstopping and capacity-building needs and requirements of developing countries;

30. *Underscores* the importance of reducing the administrative and procedural burden at the country level in the design and delivery of development assistance, on the entities of the United Nations system and recipient countries in order to optimize the impact of such assistance on the development process of countries;

Evaluation of operational activities for development

31. *Emphasizes* the importance of national ownership and leadership of the evaluation process of operational activities for development and of building national evaluation capacities, including through the intergovernmental process aimed at providing coherent guidance to the United Nations funds and programmes as well as the specialized agencies, and also emphasizes the importance of the independence and impartiality of the evaluation function within the United Nations system;

32. *Takes notes* of the endorsement in 2005 of the norms and standards for evaluation by the United Nations system through the United Nations Evaluation Group as constituting a contribution to strengthening evaluation as a United Nations system function;

33. *Notes* the adoption by some United Nations organizations of evaluation policies that have been developed based on the norms and standards for evaluation endorsed by the United Nations Evaluation Group, and looks forward to further progress in that regard;

39. *Notes* that recent reviews of accountability mechanisms have found some persistent weaknesses in tracking allocations and expenditures for gender equality in the United Nations system;

40. *Recognizes* that gender-related targets have not yet been met for the recruitment of resident coordinators and that further measures would need to be taken in that regard, and urges the United Nations system within this context to do more, with due regard to representation of women from developing countries and keeping in mind the principle of equitable geographical representation;

South-South cooperation and development of national capacities

41. *Calls upon* all the entities of the United Nations system to further enhance their support to South-South cooperation;

42. *Reiterates* the need to mobilize additional resources for enhancing South-South cooperation, including from both the United Nations system and donors and through triangular cooperation;

43. *Recognizes* that, while most United Nations entities have focal points to promote South-South cooperation, there is a need for uniform information-sharing standards among United Nations entities to enable system-wide overview of progress made in that regard;

47. *Encourages* the Emergency Relief Coordinator to coordinate closely with national authorities so as to make optimal use of available national capacity in relief efforts;

48. *Calls upon* the relevant United Nations entities to further increase efforts, where appropriate, with due consideration of national data, to harmonize data collection and information management, during the transition phase of relief to development and make that information available to the Member State concerned;

Bearing in mind its resolution 2002/13 of 24 July 2002, in which it accepted the Guidelines for the Prevention of Crime, contained in the annex to that resolution, invited Member States to draw upon those Guidelines, as appropriate, in the development or strengthening of their policies in the field of crime prevention and criminal justice, and requested the Secretary-General to report to the Commission on Crime Prevention and Criminal Justice at its fourteenth session on the implementation of the resolution,

Recalling its resolution 2003/26 of 22 July 2003 on the prevention of urban crime, in which it encouraged Member States to draw upon the Guidelines for the Prevention of Crime and to share their experience gained in that regard, including in their inputs to the report of the Secretary-General on the Guidelines, and requested the United Nations Office on Drugs and Crime and the United Nations Human Settlements Programme to assist Member States, upon request, to prepare proposals for the provision of technical assistance in the area of crime prevention in accordance with the Guidelines,

Recalling also its resolution 2004/28 of 21 July 2004 on United Nations standards and norms in crime prevention and criminal justice, in which it requested the Secretary-General to convene a meeting of intergovernmental experts and, in cooperation with the institutes of the United Nations Crime Prevention and Criminal Justice Programme network, to design information-gathering instruments on, inter alia, standards and norms related primarily to crime prevention and victim issues,

6. *Requests* the United Nations Office on Drugs and Crime, within available extrabudgetary resources, not excluding the use of existing resources from the regular budget of the Office,⁵⁶ to seek information from relevant intergovernmental and non-governmental organizations, within the mandate of the Commission on Crime Prevention and Criminal Justice, and from the institutes of the United Nations Crime Prevention and Criminal Justice Programme network and other relevant United Nations entities with respect to their capacity to provide technical assistance in relation to areas outlined in the information-gathering instrument;

Annex
Information-gathering instrument on United Nations standards and norms related primarily to the prevention of crime

Pursuant to Economic and Social Council resolution 2004/28 of 21 July 2004, the following questionnaire is designed as a tool to collect information to assist in the preparation of the report of the Secretary-General, in particular as regards the following:

- (a) The difficulties encountered in the application of United Nations standards and norms in crime prevention;
- (b) Ways in which technical assistance can be provided; and
- (c) Useful practices and emerging challenges.

It is not intended to produce a scorecard of how well States are doing. It addresses the main sections of the Guidelines for the Prevention of Crime (Council resolution 2002/13, annex) and, as the case may be, other relevant instruments.

Economic and Social Council resolution 2002/13 of 24 July 2002 on action to promote effective crime prevention accepted the Guidelines for the Prevention of Crime, and also requested the Secretary-General to report to the Commission on Crime Prevention and Criminal Justice on the implementation of that resolution. In the Guidelines, crime prevention refers to “strategies and measures that seek to reduce the risk of crimes occurring” by influencing “their multiple causes” (para. 3). It includes social crime prevention (or prevention through social development), local, community or neighbourhood-based crime prevention, situational crime prevention and measures to prevent recidivism. The definition does not include law enforcement and other criminal justice intervention, even though these may have crime prevention aspects. It is cognizant, however, of the need to take account of “the growing internationalization of criminal activities” (para. 4). When referring to the community, it refers in essence to “the involvement of civil society at the local level” (para. 5).

Other instruments relevant to the prevention of crime include:

- Economic and Social Council resolution 1995/9 of 24 July 1995, the annex to which contains the Guidelines for cooperation and technical assistance in the field of urban crime prevention

- General Assembly resolution 51/60 of 12 December 1996, the annex to which contains the United Nations Declaration on Crime and Public Security

The questionnaire is divided into five sections: structuring crime prevention at the government level; crime prevention approaches; implementation issues; international cooperation, networking and technical assistance; and concluding questions. In developing the questionnaire, related paragraphs have been grouped for simplicity and clarity.

I. Structuring crime prevention at the government level

The following paragraphs of the Guidelines for the Prevention of Crime refer to government responsibility, leadership and structures to organize and deliver effective crime prevention:

2. *It is the responsibility of all levels of government [national, regional and local] to create, maintain and promote a context within which relevant governmental institutions and all segments of civil society, including the corporate sector, can better play their part in preventing crime.*

Government leadership

7. *All levels of government should play a leadership role in developing effective and humane crime prevention strategies and in creating and maintaining institutional frameworks for their implementation and review.*

Cooperation/partnerships

9. *Cooperation/partnerships should be an integral part of effective crime prevention, given the wide-ranging nature of the causes of crime and the skills and responsibilities required to address them. This includes partnerships working across ministries and between authorities, community organizations, non-governmental organizations, the business sector and private citizens.*

Government structures

17. *Governments should include prevention as a permanent part of their structures and programmes for controlling crime, ensuring that clear responsibilities and goals exist within government for the organization of crime prevention, by, inter alia:*

(a) *Establishing centres or focal points with expertise and resources;*

(b) *Establishing a crime prevention plan with clear priorities and targets;*

(c) *Establishing linkages and coordination between relevant government agencies or departments;*

(d) *Fostering partnerships with non-governmental organizations, the business, private and professional sectors and the community;*

(e) *Seeking the active participation of the public in crime prevention by informing it of the need for and means of action and its role.*

Training and capacity-building

18. *Governments should support the development of crime prevention skills by:*

(a) *Providing professional development for senior officials in relevant agencies;*

(b) *Encouraging universities, colleges and other relevant educational agencies to offer basic and advanced courses, including in collaboration with practitioners;*

(c) *Working with the educational and professional sectors to develop certification and professional qualifications;*

(d) *Promoting the capacity of communities to develop and respond to their needs.*

Supporting partnerships

19. *Governments and all segments of civil society should support the principle of partnership, where appropriate, including:*

(a) *Advancing knowledge of the importance of this principle and the components of successful partnerships, including the need for all of the partners to have clear and transparent roles;*

(b) *Fostering the formation of partnerships at different levels and across sectors;*

(c) *Facilitating the efficient operation of partnerships.*

Annex
Bangalore Principles of Judicial Conduct

WHEREAS the Universal Declaration of Human Rights recognizes as fundamental the principle that everyone is entitled in full equality to a fair and public hearing by an independent and impartial tribunal, in the determination of rights and obligations and of any criminal charge,

WHEREAS the International Covenant on Civil and Political Rights⁷⁸ guarantees that all persons shall be equal before the courts and that in the determination of any criminal charge or of rights and obligations in a suit at law, everyone shall be entitled, without undue delay, to a fair and public hearing by a competent, independent and impartial tribunal established by law,

WHEREAS the foregoing fundamental principles and rights are also recognized or reflected in regional human rights instruments, in domestic constitutional, statutory and common law, and in judicial conventions and traditions,

⁷⁸ General Assembly resolution 2200 A (XXI), annex.

WHEREAS the importance of a competent, independent and impartial judiciary to the protection of human rights is given emphasis by the fact that the implementation of all the other rights ultimately depends upon the proper administration of justice,

WHEREAS a competent, independent and impartial judiciary is likewise essential if the courts are to fulfil their role in upholding constitutionalism and the rule of law,

WHEREAS public confidence in the judicial system and in the moral authority and integrity of the judiciary is of the utmost importance in a modern democratic society,

WHEREAS it is essential that judges, individually and collectively, respect and honour judicial office as a public trust and strive to enhance and maintain confidence in the judicial system,

WHEREAS the primary responsibility for the promotion and maintenance of high standards of judicial conduct lies with the judiciary in each country,

AND WHEREAS the Basic Principles on the Independence of the Judiciary⁷⁹ are designed to secure and promote the independence of the judiciary and are addressed primarily to States,

THE FOLLOWING PRINCIPLES are intended to establish standards for ethical conduct of judges. They are designed to provide guidance to judges and to afford the judiciary a framework for regulating judicial conduct. They are also intended to assist members of the executive and the legislature, and lawyers and the public in general, to better understand and support the judiciary. These principles presuppose that judges are accountable for their conduct to appropriate institutions established to maintain judicial standards, which are themselves independent and impartial, and are intended to supplement and not to derogate from existing rules of law and conduct that bind the judge.

Value 1 Independence

Principle

Judicial independence is a prerequisite to the rule of law and a fundamental guarantee of a fair trial. A judge shall therefore uphold and exemplify judicial independence in both its individual and institutional aspects.

Application

1.1. A judge shall exercise the judicial function independently on the basis of the judge's assessment of the facts and in accordance with a conscientious understanding of the law, free of any extraneous influences, inducements, pressures, threats or interference, direct or indirect, from any quarter or for any reason.

1.2. A judge shall be independent in relation to society in general and in relation to the particular parties to a dispute that the judge has to adjudicate.

⁷⁹ See *Seventh United Nations Congress on the Prevention of Crime and the Treatment of Offenders, Milan, 26 August-6 September 1985: report prepared by the Secretariat* (United Nations publication, Sales No. E.86.IV.1), chap. I, sect. D.2, annex.

1.3. A judge shall not only be free from inappropriate connections with, and influence by, the executive and legislative branches of government, but must also appear to a reasonable observer to be free therefrom.

1.4. In performing judicial duties, a judge shall be independent of judicial colleagues in respect of decisions that the judge is obliged to make independently.

1.5. A judge shall encourage and uphold safeguards for the discharge of judicial duties in order to maintain and enhance the institutional and operational independence of the judiciary.

1.6. A judge shall exhibit and promote high standards of judicial conduct in order to reinforce public confidence in the judiciary, which is fundamental to the maintenance of judicial independence.

Value 2
Impartiality

Principle

Impartiality is essential to the proper discharge of the judicial office. It applies not only to the decision itself but also to the process by which the decision is made.

Application

2.1. A judge shall perform his or her judicial duties without favour, bias or prejudice.

2.2. A judge shall ensure that his or her conduct, both in and out of court, maintains and enhances the confidence of the public, the legal profession and litigants in the impartiality of the judge and of the judiciary.

2.3. A judge shall, as far as is reasonable, so conduct himself or herself as to minimize the occasions on which it will be necessary for the judge to be disqualified from hearing or deciding cases.

2.4. A judge shall not knowingly, while a proceeding is before, or could come before, the judge, make any comment that might reasonably be expected to affect the outcome of such proceeding or impair the manifest fairness of the process, nor shall the judge make any comment in public or otherwise that might affect the fair trial of any person or issue.

2.5. A judge shall disqualify himself or herself from participating in any proceedings in which the judge is unable to decide the matter impartially or in which it may appear to a reasonable observer that the judge is unable to decide the matter impartially. Such proceedings include, but are not limited to, instances where:

(a) The judge has actual bias or prejudice concerning a party or personal knowledge of disputed evidentiary facts concerning the proceedings;

(b) The judge previously served as a lawyer or was a material witness in the matter in controversy; or

(c) The judge, or a member of the judge's family, has an economic interest in the outcome of the matter in controversy;

provided that disqualification of a judge shall not be required if no other tribunal can be constituted to deal with the case or, because of urgent circumstances, failure to act could lead to a serious miscarriage of justice.

Value 3
Integrity

Principle

Integrity is essential to the proper discharge of the judicial office.

Application

3.1. A judge shall ensure that his or her conduct is above reproach in the view of a reasonable observer.

3.2. The behaviour and conduct of a judge must reaffirm the people's faith in the integrity of the judiciary. Justice must not merely be done but must also be seen to be done.

Value 4
Propriety

Principle

Propriety, and the appearance of propriety, are essential to the performance of all of the activities of a judge.

Application

4.1. A judge shall avoid impropriety and the appearance of impropriety in all of the judge's activities.

4.2. As a subject of constant public scrutiny, a judge must accept personal restrictions that might be viewed as burdensome by the ordinary citizen and should do so freely and willingly. In particular, a judge shall conduct himself or herself in a way that is consistent with the dignity of the judicial office.

4.3. A judge shall, in his or her personal relations with individual members of the legal profession who practise regularly in the judge's court, avoid situations that might reasonably give rise to the suspicion or appearance of favouritism or partiality.

4.4. A judge shall not participate in the determination of a case in which any member of the judge's family represents a litigant or is associated in any manner with the case.

4.5. A judge shall not allow the use of the judge's residence by a member of the legal profession to receive clients or other members of the legal profession.

4.6. A judge, like any other citizen, is entitled to freedom of expression, belief, association and assembly, but, in exercising such rights, a judge shall always conduct himself or herself in such a manner as to preserve the dignity of the judicial office and the impartiality and independence of the judiciary.

4.7. A judge shall inform himself or herself about the judge's personal and fiduciary financial interests and shall make reasonable efforts to be informed about the financial interests of members of the judge's family.

4.8. A judge shall not allow the judge's family, social or other relationships improperly to influence the judge's judicial conduct and judgement as a judge.

4.9. A judge shall not use or lend the prestige of the judicial office to advance the private interests of the judge, a member of the judge's family or of anyone else, nor shall a judge convey or permit others to convey the impression that anyone is in a special position improperly to influence the judge in the performance of judicial duties.

4.10. Confidential information acquired by a judge in the judge's judicial capacity shall not be used or disclosed by the judge for any other purpose not related to the judge's judicial duties.

4.11. Subject to the proper performance of judicial duties, a judge may:

(a) Write, lecture, teach and participate in activities concerning the law, the legal system, the administration of justice or related matters;

(b) Appear at a public hearing before an official body concerned with matters relating to the law, the legal system, the administration of justice or related matters;

(c) Serve as a member of an official body, or other government commission, committee or advisory body, if such membership is not inconsistent with the perceived impartiality and political neutrality of a judge; or

(d) Engage in other activities if such activities do not detract from the dignity of the judicial office or otherwise interfere with the performance of judicial duties.

4.12. A judge shall not practise law while the holder of judicial office.

4.13. A judge may form or join associations of judges or participate in other organizations representing the interests of judges.

4.14. A judge and members of the judge's family shall neither ask for, nor accept, any gift, bequest, loan or favour in relation to anything done or to be done or omitted to be done by the judge in connection with the performance of judicial duties.

4.15. A judge shall not knowingly permit court staff or others subject to the judge's influence, direction or authority to ask for, or accept, any gift, bequest, loan or favour in relation to anything done or to be done or omitted to be done in connection with his or her duties or functions.

4.16. Subject to law and to any legal requirements of public disclosure, a judge may receive a token gift, award or benefit as appropriate to the occasion on which it is made provided that such gift, award or benefit might not reasonably be perceived as intended to influence the judge in the performance of judicial duties or otherwise give rise to an appearance of partiality.

**Value 5
Equality***Principle*

Ensuring equality of treatment to all before the courts is essential to the due performance of the judicial office.

Application

5.1. A judge shall be aware of, and understand, diversity in society and differences arising from various sources, including but not limited to race, colour, sex, religion, national origin, caste, disability, age, marital status, sexual orientation, social and economic status and other like causes (“irrelevant grounds”).

5.2. A judge shall not, in the performance of judicial duties, by words or conduct, manifest bias or prejudice towards any person or group on irrelevant grounds.

5.3. A judge shall carry out judicial duties with appropriate consideration for all persons, such as the parties, witnesses, lawyers, court staff and judicial colleagues, without differentiation on any irrelevant ground, immaterial to the proper performance of such duties.

5.4. A judge shall not knowingly permit court staff or others subject to the judge’s influence, direction or control to differentiate between persons concerned, in a matter before the judge, on any irrelevant ground.

5.5. A judge shall require lawyers in proceedings before the court to refrain from manifesting, by words or conduct, bias or prejudice based on irrelevant grounds, except such as are legally relevant to an issue in proceedings and may be the subject of legitimate advocacy.

**Value 6
Competence and diligence***Principle*

Competence and diligence are prerequisites to the due performance of judicial office.

Application

6.1. The judicial duties of a judge take precedence over all other activities.

6.2. A judge shall devote the judge’s professional activity to judicial duties, which include not only the performance of judicial functions and responsibilities in court and the making of decisions, but also other tasks relevant to the judicial office or the court’s operations.

6.3. A judge shall take reasonable steps to maintain and enhance the judge’s knowledge, skills and personal qualities necessary for the proper performance of judicial duties, taking advantage for that purpose of the training and other facilities that should be made available, under judicial control, to judges.

6.4. A judge shall keep himself or herself informed about relevant developments of international law, including international conventions and other instruments establishing human rights norms.

6.5. A judge shall perform all judicial duties, including the delivery of reserved decisions, efficiently, fairly and with reasonable promptness.

6.6. A judge shall maintain order and decorum in all proceedings before the court and be patient, dignified and courteous in relation to litigants, jurors, witnesses, lawyers and others with whom the judge deals in an official capacity. The judge shall require similar conduct of legal representatives, court staff and others subject to the judge's influence, direction or control.

6.7. A judge shall not engage in conduct incompatible with the diligent discharge of judicial duties.

Alarmed at the serious and growing threat posed by organized criminal groups involved in drug trafficking, money-laundering and various other forms of organized crime and their potential and, in some cases, actual links with terrorist groups,

Aware that in a number of countries illicit drug production represents a major obstacle to sustainable economic, social and political development,

Taking into account the multifaceted challenges faced by States situated along international trafficking routes and the effects of trafficking in drugs, including related crime and drug abuse, resulting from the transit of illicit drugs through the territory of transit States,

Recognizing the need to take further urgent measures against the illicit cultivation of narcotic drug crops and the illicit production of and trafficking in drugs in regions where drug traffickers and organized criminal groups take advantage of territories affected by conflict, war, foreign occupation or other situations to engage in illicit activities,

Mindful of the essential need to strengthen international, regional and subregional cooperation aimed at enhancing the capacity of States to tackle drug trafficking effectively and to meet the goals and targets for the year 2008 set by the General Assembly at its twentieth special session,

Reiterating the principle of shared responsibility and the need for all States to promote and implement the action necessary to counter the world drug problem in all its aspects,

Convinced that specific action and comprehensive, well-coordinated national plans are the most effective means by which to combat problems involving illicit drugs and related crime,

Have agreed on the following:

Cooperation between drug law enforcement agencies

1. We reaffirm our commitment to promoting coordinated drug control strategies and unified responses to drug trafficking and, in that context, encourage the development, effective implementation and further strengthening of measures for the prevention and suppression of drug trafficking and the reduction of illicit drug demand in transit States, as well as cooperation in areas such as border control, mutual legal assistance, law enforcement, including controlled delivery, and exchange of information between transit States, countries of destination and countries of origin.

2. In promoting a unified response to combating drug trafficking in the region, States members of the Subcommittee on Illicit Drug Traffic and Related Matters in the Near and Middle East should promote closer coordination between drug law enforcement agencies of neighbouring States, such as through joint training, through the establishment of effective systems to promote the sharing of operational experience to facilitate the identification and arrest of drug traffickers and the dismantling of criminal groups and through the facilitation of regular meetings of drug law enforcement agencies with their cross-border counterparts.

3. Drug law enforcement agencies in the region should establish specific mechanisms for the regular exchange of information between national drug law enforcement agencies and their counterparts in neighbouring States and beyond on drug trafficking networks active in the region.

4. We emphasize the importance of coordinating law enforcement activities, in particular the exchange of information at the international level, which can benefit greatly by the establishment of coordination centres, such as the Central Asian Regional Information and Coordination Centre of the United Nations Office on Drugs and Crime.

5. Governments should designate national law enforcement authorities to be responsible for dealing with requests for mutual legal assistance, as provided for in article 7 of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988,¹¹⁹ as well as cooperating closely with other authorities with a view to enhancing the effectiveness of law enforcement action, as provided for in article 9 of that Convention.

6. In order to expand their operational capacities, States members of the Subcommittee should consider implementing coordinated operations at border stations, through coordinated mobile patrols and by strengthening joint drug law enforcement efforts at land and sea borders involving neighbouring States.

¹¹⁹ United Nations, *Treaty Series*, vol. 1582, No. 27627.

7. States members of the Subcommission should work towards greater harmonization of their criminal justice systems and national drug control legislation in order to expedite the taking of appropriate measures and other action against drug traffickers and related offenders.

8. States members of the Commission should work to support the efforts of the international community to provide the necessary support to the counter-narcotics objectives of the Government of Afghanistan, by continued technical assistance and financial commitment, in particular, to all eight pillars of the Counter-Narcotics Implementation Plan of Afghanistan.

9. The Subcommission should continue to meet on an annual basis in the capital city of one of its member States.

Drug demand reduction

10. States members of the Subcommission should promote awareness, in particular among young people, of the health, social and psychological problems that may result from the abuse of illicit drugs.

11. States members of the Subcommission should consider amending their national legislation, where necessary, to facilitate the treatment and rehabilitation of drug abusers through, for example, the introduction of drug courts, police referral to voluntary treatment programmes and other recognized alternative approaches to treatment.

12. States members of the Subcommission should strengthen their political commitment to implement drug abuse prevention policies and strategies effectively and to continue their drug demand reduction programmes, paying attention to early intervention, rehabilitation and social reintegration of drug users, in order to prevent the transmission of HIV/AIDS and other blood-borne diseases in the context of drug abuse.

13. States members of the Subcommission should continue to incorporate substance abuse prevention, treatment and health care into their national drug control strategies, as well as into their socio-economic development programmes, especially programmes designed to enhance the social and economic empowerment of women, and child welfare, including in relation to preventing and reducing the spread of HIV/AIDS and other blood-borne diseases in the context of drug abuse.

14. States members of the Subcommission are also encouraged to ensure that substance abuse treatment is accessible and affordable to drug abusers living with HIV/AIDS and other blood-borne diseases and to work to eliminate barriers to access for drug abusers in need of HIV/AIDS care and support.

Assistance to transit States

15. We welcome the follow-up of the United Nations Office on Drugs and Crime to the Paris Pact initiative that emerged from the Paris Statement, which was issued at the end of the Conference on Drug Routes from Central Asia to Europe, held in Paris on 21 and 22 May 2003,¹²⁰ and encourage the development of similar

¹²⁰ See S/2003/641, annex.

strategies in other regions for countries affected by the transit of illicit drugs through their territory.

16. International financial institutions and other potential donors are encouraged to provide financial assistance to States affected by the transit of illicit drugs through their territory, including for empowering and building the capacity of locally available human resources, so that those States may intensify their efforts to combat drug trafficking and drug abuse and deal with their consequences.

17. States members of the Subcommittee should integrate projects, where appropriate, for illicit drug demand reduction and strengthen treatment and rehabilitation services for drug abusers in the programmes for international assistance to those transit States which are affected by drug abuse as a result of the transit of illicit drugs through their territory, to enable them to deal effectively with the problem.

Control of precursors

18. States members of the Subcommittee should cooperate closely with the International Narcotics Control Board to further strengthen international cooperation in the implementation of article 12 of the 1988 Convention, in accordance with the measures to control precursors adopted by the General Assembly at its twentieth special session.¹²¹

19. States members of the Subcommittee should support international operations aimed at preventing diversion of chemical precursors used in the illicit manufacture of cocaine, heroin and amphetamine-type stimulants, in particular Operation Topaz, Operation Purple and Project Prism coordinated by the International Narcotics Control Board, by exchanging information with other States and conducting timely joint law enforcement operations, including the use of controlled deliveries and backtracking investigations into the sources and origins of seizures.

20. States members of the Subcommittee are urged to take immediate steps to ensure that the substances listed in Tables I and II of the 1988 Convention are placed under the control of their regulatory authorities.

Money-laundering

21. States members of the Subcommittee should strengthen action to prevent and combat money-laundering, including by enhancing international cooperation, adopting legislation that makes money-laundering a criminal and extraditable offence, establishing financial intelligence units to support the effective investigation and prosecution of money-laundering offences and removing any impediments to criminal investigation linked to bank secrecy.

International cooperation in illicit crop eradication and alternative development

22. The international community should be requested to assist and cooperate in the development of illicit crop eradication programmes and to promote alternative development programmes and, in particular, support should be given to Afghanistan in this respect.

¹²¹ General Assembly resolution S-20/4 B.

United Nations Convention against Transnational Organized Crime and the Protocols thereto and the United Nations Convention against Corruption

23. States members of the Subcommission welcome the entry into force of the United Nations Convention against Transnational Organized Crime¹²² and its Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children,¹²³ the Protocol against the Smuggling of Migrants by Land, Sea and Air¹²⁴ and the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition.¹²⁵

24. States members of the Subcommission that have not yet done so should become parties to and implement the Organized Crime Convention and the Protocols thereto, as well as the universal conventions and protocols related to terrorism, as soon as possible and, where appropriate, request assistance to that end from the United Nations Office on Drugs and Crime, in coordination with other relevant United Nations bodies, such as the Counter-Terrorism Committee.

25. States members of the Subcommission should also consider signing and ratifying the United Nations Convention against Corruption¹²⁶ as soon as possible in order to allow its early entry into force and subsequent implementation.

26. States members of the Subcommission and relevant regional economic integration organizations should take all necessary measures to improve international cooperation in criminal matters, especially in the form of extradition and mutual legal assistance, in accordance with the relevant conventions.

Recalling the provisions of the Single Convention on Narcotic Drugs of 1961,¹²⁷ that Convention as amended by the 1972 Protocol,¹²⁸ the Convention on Psychotropic Substances of 1971¹²⁹ and the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988,¹³⁰

Recalling also the Political Declaration adopted by the General Assembly at its twentieth special session,¹³¹ in which Member States recognized that action against the world drug problem was a common and shared responsibility,

¹³⁰ *Ibid.*, vol. 1582, No. 27627.

¹³¹ General Assembly resolution S-20/2, annex.

Recalling Commission on Narcotic Drugs resolution 45/8 on the control of cannabis in Africa,

Noting the progress made by the United Nations Office on Drugs and Crime in the implementation of General Assembly resolution 59/160, and looking forward to the forthcoming release of the market survey on cannabis requested by the Assembly in that resolution,

Emphasizing the need for States parties to continue to honour their obligations under the 1961 Convention, that Convention as amended by the 1972 Protocol, the 1971 Convention and the 1988 Convention,

Noting that cannabis is by far the most widely and most frequently abused of the drugs listed in the international drug control treaties,

Concerned that cultivation of cannabis plants and trafficking in and abuse of cannabis are on the increase in Africa, in part as a result of extreme poverty, the absence of any crops offering viable alternatives and the lack of resources for the identification and eradication of cultivation of cannabis plants and for interdiction efforts and in part because of the profitability of such activities and the high demand for cannabis in other regions,

Emphasizing the importance of international cooperation in combating both drug trafficking and drug abuse in a balanced and integrated manner,

Recognizing that alternative development programmes have proved to be a useful tool in efforts to eradicate illicit drug crop cultivation,

Aware of the importance of programmes promoting alternative development, including, where appropriate, preventive alternative development,

Having regard to the successes recorded so far in the reduction of coca bush and opium poppy cultivation through the application of alternative development programmes,

Taking note of the report of the International Narcotics Control Board for 2005, in which the Board regretted the absence of alternative development projects or programmes in Africa, despite the large amount of cannabis produced in the region,¹³²

Desiring that the successful application of alternative development programmes in efforts to sustain the reduction of coca bush and opium poppy cultivation be replicated, as appropriate and possible, in efforts to reduce the cultivation of cannabis plants,

1. *Calls upon* Member States to continue to adhere to the international drug control treaties and to adopt policies that promote international cooperation;
2. *Calls upon* Member States and requests the United Nations Office on Drugs and Crime to implement General Assembly resolution 59/160 on the control of cultivation of and trafficking in cannabis;
3. *Urges* Member States, in accordance with the principle of shared responsibility and as part of their commitment to the fight against illicit drugs, to

extend cooperation to affected States, especially in Africa, in the area of alternative development, including research into crops offering viable alternatives to cannabis, and technical assistance, with due regard to the environmental degradation caused by the cultivation of cannabis plants;

4. *Calls upon* Member States and invites organizations with experience and relevant expertise in the eradication of illicit crops and in the design and implementation of alternative development programmes to share that experience and expertise, upon request, with States seeking to develop and implement eradication and alternative development programmes with a view to reducing the cultivation of cannabis plants, especially in Africa, and requests the United Nations Office on Drugs and Crime to facilitate efforts in that regard;

5. *Urges* Member States in which the large-scale cultivation of cannabis plants is taking place to carry out, as a matter of priority and as appropriate, a comprehensive assessment of the extent of such cultivation and to use that assessment to inform both eradication and alternative development strategies with a view to further reducing the supply of cannabis;

6. *Requests* the United Nations Office on Drugs and Crime, when requested by States reporting the large-scale cultivation of cannabis plants, to conduct a study with development partners, subject to the availability of extrabudgetary resources, on the feasibility of implementing alternative development programmes in those countries;

7. *Urges* Member States implementing alternative development programmes to integrate them into other drug control measures, including demand reduction strategies, at the national and regional levels in such a way as to ensure the sustainability of those programmes;

8. *Requests* the United Nations Office on Drugs and Crime to consider the possibility of developing a global, integrated and balanced strategy for alternative development in consultation with Member States, in coordination with ongoing efforts to establish an overarching strategy, pursuant to paragraphs 9 and 10 of Commission on Narcotic Drugs resolution 48/14;

9. *Requests* the Executive Director of the United Nations Office on Drugs and Crime to report to the Commission on Narcotic Drugs at its fifty-first session on the implementation of the present resolution.

Support for the National Drug Control Strategy of the Government of Afghanistan

The Economic and Social Council,

Recognizing the scale and complexity of the problem of narcotic drugs and the risk that the cultivation of opium poppy and the production of and trafficking in opium poses to the security, development and governance of Afghanistan, as well as at the regional and international levels,

Noting with appreciation the continued efforts of the Government of Afghanistan and the personal commitment of President Hamid Karzai to foster and implement counter-narcotics measures, including the publication in 2006 of the interim National Drug Control Strategy, which was welcomed by the international community at the Conference on Afghanistan held in London on 31 January and 1 February 2006,

Welcoming the inclusion of counter-narcotics as a cross-cutting theme in the Afghanistan Compact and the Government of Afghanistan's interim National Development Strategy,

Welcoming also the noteworthy progress made in the fight against narcotics in Afghanistan, including the adoption of counter-narcotics legislation, the establishment of a counter-narcotics tribunal, the use of extradition as a tool and the development of the country's counter-narcotics law enforcement and criminal justice capacity, which has resulted in the conviction of over ninety drug traffickers and an increase in drug-related seizures,

Recalling the report by the United Nations Office on Drugs and Crime entitled *Afghanistan: Opium Survey 2005*, in which it is indicated that, for the first time since 2001, Afghanistan has succeeded in achieving a decrease of 20 per cent in the area under cultivation of opium poppy, from 130,000 hectares to 104,000 hectares,

Welcoming the commitment by Afghanistan and its neighbours to enhanced regional cooperation as expressed in the Doha Declaration on Border Management in Afghanistan of 28 February 2006,

Noting with concern, however, the reported potential for increases in 2006 in the cultivation of opium poppy, in particular in specific provinces of Afghanistan,

Bearing in mind that securing the sustainable elimination of drug crop cultivation and drug trafficking in Afghanistan will take time and that it is a common and shared responsibility to be addressed through international efforts, as recognized by Member States in the Political Declaration adopted by the General Assembly at its twentieth special session,¹³³

Recalling General Assembly resolutions 59/161 of 20 December 2004 and 60/179 of 16 December 2005, in which the Assembly requested the international community to support the Government of Afghanistan in its fight against the illicit cultivation of opium poppy and trafficking in narcotic drugs,

Recalling also Security Council resolution 1659 (2006) of 15 February 2006, in which the Council endorsed the Afghanistan Compact and its annexes, welcomed the updated National Drug Control Strategy presented by the Government of Afghanistan at the London Conference and encouraged additional international support for the four priorities identified in that Strategy, including through contributions to the Counter-Narcotics Trust Fund,

1. *Welcomes* the bilateral and multilateral support being provided to Afghanistan by the international community, including through contributions to the Government of Afghanistan's Counter-Narcotics Trust Fund, through the United Nations Office on Drugs and Crime and through other entities;

¹³³ General Assembly resolution S-20/2, annex.

2. *Notes with appreciation* the strong commitment of the international community to the development and reconstruction of Afghanistan, as reflected in its endorsement of the Afghanistan Compact during the Conference on Afghanistan held in London on 31 January and 1 February 2006;

3. *Commends* the National Drug Control Strategy of 2006 of the Government of Afghanistan, including its identification of the following four priority areas of activity:

(a) Disrupting the illicit drug trade by targeting traffickers and their backers;

(b) Strengthening and diversifying legal rural livelihoods;

(c) Reducing the demand for illicit drugs and enhancing the treatment of problem drug users, including support for the action steps on demand reduction identified by Afghanistan and its partners at the Conference on Behavioural Health held in Kabul in May 2005;

(d) Developing state institutions at the central and provincial levels vital to the implementation of the counter-narcotics strategy;

4. *Invites* the international community to provide the necessary support to enable the Government of Afghanistan to implement its National Drug Control Strategy by:

(a) Continued provision of expertise and financial assistance, including through the Counter-Narcotics Trust Fund, in support of the key priorities set out in the National Drug Control Strategy;

(b) Making every effort to control smuggling into Afghanistan of precursors and chemicals used in the manufacture of narcotic drugs;

(c) Enhancing the steps already being taken aimed at a global reduction in illicit drug demand, thereby helping the Government of Afghanistan to fight illicit production of and trafficking in narcotic drugs;

5. *Reiterates* the concern expressed by the International Narcotics Control Board in its report for 2005¹³⁴ regarding the recent advocacy by a non-governmental organization of so-called legal cultivation of opium poppy in Afghanistan;

6. *Urges* the Government of Afghanistan to maintain control of illicit drugs among its highest priorities, as stipulated in article 7 of the Afghan Constitution and in line with the National Drug Control Strategy, with a view to enhancing its efforts to combat illicit cultivation of opium poppy and trafficking in drugs;

7. *Encourages* the Government of Afghanistan and all members of the international community to implement the Afghanistan Compact, which aims at achieving a sustained and significant reduction in the production of and trafficking in narcotics with a view to completely eliminating them, with drug control as a cross-cutting issue;

8. *Invites* the Government of Afghanistan and its neighbours, while appreciating their existing cooperation, to enhance regional cooperation in order to

¹³⁴ *Report of the International Narcotics Control Board for 2005* (United Nations publication, Sales No. E.06.XI.2), para. 208.

strengthen border control and security belts in the region, with a view to disrupting the smuggling of drugs out of Afghanistan and the smuggling of precursors into Afghanistan, including through participation in the Paris Pact initiative,¹³⁵ emerging from the Paris Statement, which was issued at the end of the Conference on Drug Routes from Central Asia to Europe, held in Paris on 21 and 22 May 2003, and in the work of the Central Asian Regional Information and Coordination Centre;

9. *Invites* Member States to provide the necessary resources to the United Nations Office on Drugs and Crime to support the work of the Central Asian Regional Information and Coordination Centre;

10. *Calls upon* the United Nations Office on Drugs and Crime to strengthen its efforts, subject to the availability of extrabudgetary resources, to ensure that multilateral assistance is provided to Afghanistan in full support of its National Drug Control Strategy;

11. *Decides* to continue the consideration of this matter at future sessions.

Strengthening international cooperation for alternative development, including preventive alternative development, with due regard for environmental protection

The Economic and Social Council,

Reaffirming the Joint Ministerial Statement and further measures to implement the action plans emanating from the twentieth special session of the General Assembly, adopted during the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs, in which States were urged to provide greater access to their markets for products of alternative development programmes, which were necessary for the creation of employment and the eradication of poverty,¹³⁶

Reaffirming also its resolution 2003/37 of 22 July 2003 on strengthening alternative development through trade and socio-environmental preservation, in which it called upon the United Nations International Drug Control Programme and all Member States to continue to cooperate effectively on programmes to promote alternative development, including, where appropriate, preventive alternative development,

Reaffirming further Commission on Narcotic Drugs resolution 45/14, in which the Commission invited Member States to make more comprehensive and determined efforts in the area of financial and technical cooperation aimed at promoting alternative development, including, where appropriate, preventive alternative development,

Bearing in mind Commission on Narcotic Drugs resolution 48/9 and the report of the Executive Director of the United Nations Office on Drugs and Crime on

strengthening alternative development as an important drug control strategy and establishing alternative development as a cross-cutting issue,¹³⁷

Recognizing with concern that in some Member States illicit crop cultivation and illicit drug production degrade, among other things, forest areas, areas under environmental protection and areas used for licit crops, causing serious environmental damage,

Taking into account the Millennium Development Goals,¹³⁸ the Rio Declaration on Environment and Development¹³⁹ and Agenda 21,¹⁴⁰ adopted by the United Nations Conference on Environment and Development in 1992, and the Johannesburg Declaration on Sustainable Development,¹⁴¹

Noting with concern that, in lands adjacent to areas used for the cultivation of illicit crops, there is a high risk of displacement of licit crops and their replacement by illicit crops,

Recognizing the importance of achieving a balance between law enforcement, demand reduction, interdiction, eradication and alternative development, including, where appropriate, preventive alternative development,

1. *Emphasizes* the importance of mainstreaming alternative development, including, where appropriate, preventive alternative development, into national and international development strategies as well as into development efforts;

2. *Requests* the United Nations Office on Drugs and Crime, subject to the availability of extrabudgetary resources, and all Member States to continue to cooperate effectively on programmes and projects to promote alternative development, including, where appropriate, preventive alternative development;

3. *Urges* donor Governments, in conformity with the principle of shared responsibility and as a sign of their commitment to fight against illicit drugs in a comprehensive and balanced manner, to increase their cooperation on alternative development matters, including, where appropriate, preventive alternative development, by taking into account environmental protection, sustainable forest management, including agroforestry and reforestation, technical assistance, production infrastructure and the promotion of private investment and the agricultural industry;

4. *Calls upon* Member States, consistent with their national and international obligations, and invites relevant international organizations to consider measures to facilitate access to and positioning in international markets for alternative development products;

The need for a balance between demand for and supply of opiates used to meet medical and scientific needs

The Economic and Social Council,

Recalling its resolution 2005/26 of 22 July 2005 and previous relevant resolutions,

Recognizing that the medical use of narcotic drugs, including opiates, is indispensable for the relief of pain and suffering,

Emphasizing that the need for a balance between the global licit supply of opiates and the legitimate demand for opiates used to meet medical and scientific needs is central to the international strategy and policy of drug control,

Noting the fundamental need for international cooperation with the traditional supplier countries in drug control to ensure universal application of the provisions of the Single Convention on Narcotic Drugs of 1961¹⁴² and that Convention as amended by the 1972 Protocol,¹⁴³

Reiterating that a balance between consumption and production of opiate raw materials was achieved in the past as a result of efforts made by the two traditional supplier countries, India and Turkey, together with established supplier countries,

Expressing deep concern at the increase in the global production of opiate raw materials and the significant accumulation of stocks over the past few years as a consequence of the operation of market forces, which has the potential to upset the delicate balance between the licit supply of and demand for opiates to meet medical and scientific needs,

¹⁴² United Nations, *Treaty Series*, vol. 520, No. 7515.

¹⁴³ *Ibid.*, vol. 976, No. 14152.

Emphasizing the importance of the system of estimates, based on actual consumption and utilization of narcotic drugs, furnished to and confirmed by the International Narcotics Control Board on the extent of cultivation and production of opiate raw materials, in particular in view of the current oversupply,

Recalling the Joint Ministerial Statement adopted during the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs,¹⁴⁴ in which ministers and other Government representatives called upon States to continue to contribute to the maintenance of a balance between the licit supply of and demand for opiate raw materials used for medical and scientific purposes and to cooperate in preventing the proliferation of sources of production of opiate raw materials,

Considering that opiate raw materials and the opiates derived from them are not just ordinary commodities that can be subjected to the operation of market forces and that, therefore, market economy considerations alone should not determine the extent of cultivation of opium poppy,

Reiterating the importance of the medical use of opiates in pain relief therapy, as advocated by the World Health Organization,

Noting that countries differ significantly in their level of licit demand for narcotic drugs and that in most developing countries the use of narcotic drugs for medical purposes has remained at an extremely low level,

1. *Urges* all Governments to continue to contribute to maintaining a balance between the licit supply of and demand for opiate raw materials used for medical and scientific purposes, supporting traditional and established supplier countries, and to cooperate in preventing the proliferation of sources of production of opiate raw materials;

2. *Urges* Governments of all producer countries to adhere strictly to the provisions of the Single Convention on Narcotic Drugs of 1961¹⁴² and that Convention as amended by the 1972 Protocol,¹⁴³ and to take effective measures to prevent the illicit production or diversion of opiate raw materials to illicit channels, and encourages improvements in practices in the cultivation of opium poppy and production of opiate raw materials;

3. *Urges* Governments of consumer countries to assess their licit needs for opiate raw materials realistically on the basis of actual consumption and utilization of opiate raw materials and the opiates derived from them and to communicate those needs to the International Narcotics Control Board in order to ensure effective supply, calls on Governments of countries producing opium to limit the cultivation of opium poppy, taking into account the current level of global stocks, to the estimates furnished to and confirmed by the Board, in accordance with the requirements of the 1961 Convention, and urges that, in providing estimates of such cultivation, producer countries consider the actual demand requirements of importing countries;

4. *Endorses* the concern expressed by the International Narcotics Control Board in its report for 2005¹⁴⁵ regarding the advocacy by a non-governmental

organization of legalization of opium poppy cultivation in Afghanistan, and urges all Governments to resist such proposals and to continue to strengthen drug control in compliance with their obligations emanating from the international drug control treaties;

5. *Urges* all the Governments of countries where opium poppy has not been cultivated for the licit production of opiate raw materials, in the spirit of collective responsibility, to refrain from engaging in the commercial cultivation of opium poppy in order to avoid the proliferation of supply sites, and calls on Governments to enact enabling legislation to prevent and prohibit the proliferation of sites used for the production of opiate raw materials;

6. *Commends* the International Narcotics Control Board for its efforts in monitoring the implementation of the relevant Economic and Social Council resolutions and, in particular:

(a) In urging the Governments concerned to adjust global production of opiate raw materials to a level corresponding to actual licit requirements and to avoid creating imbalances between the licit supply of and demand for opiates caused by the exportation of products manufactured from seized and confiscated drugs;

(b) In inviting the Governments concerned to ensure that opiates imported into their countries for medical and scientific use do not originate in countries that transform seized and confiscated drugs into licit opiates;

(c) In arranging informal meetings, during the sessions of the Commission on Narcotic Drugs, with the main States that import and produce opiate raw materials;

7. *Requests* the International Narcotics Control Board to continue its efforts to monitor the implementation of the relevant Economic and Social Council resolutions in full compliance with the Single Convention on Narcotic Drugs of 1961 and that Convention as amended by the 1972 Protocol;

8. *Requests* the Secretary-General to transmit the text of the present resolution to all Governments for consideration and implementation.

The need to harmonize and improve United Nations informatics systems for optimal utilization and accessibility by all States

The Economic and Social Council,

Welcoming the report of the Secretary-General on international cooperation in the field of informatics¹⁴⁶ and the initiatives of the Ad Hoc Open-ended Working Group on Informatics,

¹⁴⁶ E/2006/79.

Recognizing the interest of Member States in taking full advantage of information and communication technologies for the acceleration of economic and social development,

Recalling its previous resolutions on the need to harmonize and improve United Nations information systems for optimal utilization and access by all States, with due regard to all official languages,¹⁴⁷

Welcoming the intensification of efforts by the Information Technology Services Division of the Department of Management of the Secretariat to provide interconnectivity and unhindered Internet access to all Permanent and Observer Missions at the United Nations,

1. *Reiterates* once again the high priority that it attaches to easy, economical, uncomplicated and unhindered access for Member States and Observers of the United Nations, as well as non-governmental organizations accredited to the United Nations, to the computerized databases and information systems and services of the United Nations, provided that the unhindered access of non-governmental organizations to such databases, systems and services will not prejudice the access of Member States nor impose an additional financial burden for their use;

Mainstreaming a gender perspective into all policies and programmes in the United Nations system

The Economic and Social Council,

Reaffirming its agreed conclusions 1997/2 on mainstreaming a gender perspective into all policies and programmes in the United Nations system,¹⁴⁸ and recalling its resolutions 2001/41 of 7 July 2001, 2002/23 of 24 July 2002, 2003/49 of 24 July 2003, 2004/4 of 7 July 2004 and 2005/31 of 26 July 2005,

Reaffirming also the commitment made at the 2005 World Summit to actively promote the mainstreaming of a gender perspective in the design, implementation, monitoring and evaluation of policies and programmes in all political, economic and social spheres and to further undertake to strengthen the capabilities of the United Nations system in the area of gender,

Acknowledging that enhancing women's opportunities, potential and activities requires a dual focus, namely, programmes aimed at meeting the basic needs and the specific needs of women for capacity-building, organizational development and empowerment, together with gender mainstreaming in all programme formulation and implementation activities,

Reaffirming that gender mainstreaming is a globally accepted strategy for promoting gender equality and constitutes a critical strategy in the implementation of the Beijing Platform for Action¹⁴⁹ and the outcomes of the twenty-third special session of the General Assembly,¹⁵⁰

Recognizing that training is critical for increasing awareness, knowledge, commitment and the capacity of staff to mainstream a gender perspective into United Nations policies and programmes and that the provision of effective gender training requires adequate financial and human resources,

Underlining the catalytic role played by the Commission on the Status of Women, as well as the important role played by the Economic and Social Council and the General Assembly, in promoting and monitoring gender mainstreaming within the United Nations system,

1. *Welcomes* the report of the Secretary-General on follow-up to and progress in the implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly, especially in regard to mainstreaming a gender perspective in entities of the United Nations system;¹⁵¹

2. *Notes with appreciation* the progress and continued efforts made by United Nations entities to address gaps between policy and practice in mainstreaming a gender perspective in their respective fields of work, including through the development of training, methodologies and tools;

¹⁵¹ E/2006/65.

3. *Expresses concern* at the large gap remaining between policy and practice, with the result that a gender equality perspective is not yet fully integrated into the work of the United Nations;

4. *Recognizes* that training is critical for increasing the awareness, knowledge, commitment and capacity of staff in respect of mainstreaming a gender perspective in United Nations policies and programmes, and in this regard, calls upon all entities of the United Nations system, including United Nations agencies, funds and programmes, within the United Nations Staff Development Programme budget and other existing United Nations training budgets, without prejudice to the achievement of other training priorities, to:

(a) Make specific commitments annually to gender mainstreaming training, including in core competence development, and ensure that all gender equality policies, strategies and action plans include such commitments;

(b) Provide specific ongoing capacity-building, inter alia, through training, for gender specialists and gender focal points, including in the field;

(c) Make gender training mandatory for all staff and personnel and develop specific training for different categories and levels of staff;

(d) Ensure the integration of gender perspectives in relevant training courses, including in induction courses, training on results-based management frameworks and training on the project and programme cycle;

(e) Develop innovative forms of capacity-building, in addition to formal training, including by using information and communication technologies, and systematically assess the effectiveness of new approaches;

(f) Ensure that managers provide the leadership and support required, including by enhancing awareness, commitment and capacity through innovative approaches specifically developed for management levels;

(g) Ensure that, as relevant, offices of human resources management advocate for gender training and the enhancement of pertinent skills for all trainers within the United Nations;

(h) Develop more effective forms of follow-up to training to ensure full utilization of best practices and maximum impact on work programmes;

(i) Strengthen accountability systems for both management and staff, through, inter alia, the inclusion of objectives and results related to gender mainstreaming in personnel workplans and appraisals;

(j) Develop effective means of impact assessment, including the use of indicators for the systematic monitoring and evaluation of training and the performance of trainers;

(k) Create or expand electronic knowledge networks on gender mainstreaming to increase effective support for and follow-up to capacity-building activities;

(l) Strengthen inter-agency collaboration, including through the work of the Inter-Agency Network on Women and Gender Equality, to ensure systematic exchange of resources and tools across the system to promote cross-fertilization of ideas;

(m) Ensure that resident coordinators systematically promote, monitor and report on capacity-building activities related to gender mainstreaming within their country teams;

(n) Strengthen country team collaboration on gender training at the country level, including through sharing methodologies and tools, undertaking joint activities and strengthening the capacity of gender theme groups to support such activities;

5. *Recognizes* the important role that senior management plays in creating an environment that actively supports gender mainstreaming and strongly encourages it to do so;

6. *Takes note* of the work already undertaken to implement General Assembly resolution 59/164 of 20 December 2004 on the improvement of the status of women in the United Nations system, and urges continued efforts towards its full implementation;

Support to Non-Self-Governing Territories by the specialized agencies and international institutions associated with the United Nations

The Economic and Social Council,

Having examined the report of the Secretary-General¹⁵² and the report of the President of the Economic and Social Council containing the information submitted by the specialized agencies and the international institutions associated with the United Nations on their activities with regard to the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples,¹⁵³

¹⁵² A/61/62.

¹⁵³ E/2006/47.

Having heard the statement by the representative of the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples,

Recalling General Assembly resolutions 1514 (XV) of 14 December 1960 and 1541 (XV) of 15 December 1960, the resolutions of the Special Committee and other relevant resolutions and decisions, including, in particular, Economic and Social Council resolution 2005/49 of 27 July 2005,

Bearing in mind the relevant provisions of the final documents of the successive Conferences of Heads of State or Government of Non-Aligned Countries and of the resolutions adopted by the Assembly of Heads of State and Government of the African Union, the Pacific Islands Forum and the Caribbean Community,

Welcoming the assistance extended to Non-Self-Governing Territories by certain specialized agencies and other organizations of the United Nations system, in particular the United Nations Development Programme,

Stressing that, because the development options of the small island Non-Self-Governing Territories are limited, there are special challenges to planning for and implementing sustainable development and that those Territories will be constrained in meeting the challenges without the continued cooperation and assistance of the specialized agencies and other organizations of the United Nations system,

Stressing also the importance of securing the necessary resources to fund expanded programmes of assistance for the peoples concerned and the need to enlist the support of all the major funding institutions within the United Nations system in that regard,

Reaffirming the mandate of the specialized agencies and other organizations of the United Nations system to take all appropriate measures, within their respective spheres of competence, to ensure the full implementation of General Assembly resolution 1514 (XV) and other relevant resolutions,

Expressing its appreciation to the African Union, the Pacific Islands Forum, the Caribbean Community and other regional organizations for the continued cooperation and assistance they have extended to the specialized agencies and other organizations of the United Nations system in this regard,

Expressing its conviction that closer contacts and consultations between and among the specialized agencies and other organizations of the United Nations

system and regional organizations help to facilitate the effective formulation of programmes of assistance for the peoples concerned,

Mindful of the imperative need to keep under continuous review the activities of the specialized agencies and other organizations of the United Nations system in the implementation of the various United Nations decisions relating to decolonization,

Bearing in mind the extremely fragile economies of the small island Non-Self-Governing Territories and their vulnerability to natural disasters, such as hurricanes, cyclones and sea-level rise, and recalling the relevant resolutions of the General Assembly,

Recalling General Assembly resolution 60/112 of 8 December 2005, entitled "Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations",

5. *Also reaffirms* that the recognition by the General Assembly, the Security Council and other United Nations organs of the legitimacy of the aspirations of the peoples of the Non-Self-Governing Territories to exercise their right to self-determination entails, as a corollary, the extension of all appropriate assistance to those peoples;

6. *Expresses its appreciation* to those specialized agencies and other organizations of the United Nations system that have continued to cooperate with the United Nations and the regional and subregional organizations in the implementation of General Assembly resolution 1514 (XV) and other relevant resolutions of the United Nations, and requests all the specialized agencies and other organizations of the United Nations system to implement the relevant provisions of those resolutions;

8. *Requests* the specialized agencies and other organizations and bodies of the United Nations system and regional organizations to strengthen existing

measures of support and formulate appropriate programmes of assistance to the remaining Non-Self-Governing Territories, within the framework of their respective mandates, in order to accelerate progress in the economic and social sectors of those Territories;

9. *Recommends* that the executive heads of the specialized agencies and other organizations of the United Nations system formulate, with the active cooperation of the regional organizations concerned, concrete proposals for the full implementation of the relevant resolutions of the United Nations and submit the proposals to their governing and legislative organs;

10. *Also recommends* that the specialized agencies and other organizations of the United Nations system continue to review, at the regular meetings of their governing bodies, the implementation of General Assembly resolution 1514 (XV) and other relevant resolutions of the United Nations;

11. *Welcomes* the continuing initiative exercised by the United Nations Development Programme in maintaining close liaison among the specialized agencies and other organizations of the United Nations system, including the Economic Commission for Latin America and the Caribbean and the Economic and Social Commission for Asia and the Pacific, and in providing assistance to the peoples of the Non-Self-Governing Territories;

12. *Requests* the Department of Public Information of the United Nations Secretariat, in consultation with the United Nations Development Programme, the specialized agencies and the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples, to prepare an information leaflet on assistance programmes available to the Non-Self-Governing Territories and to disseminate it widely among them;

13. *Encourages* Non-Self-Governing Territories to take steps to establish and/or strengthen disaster preparedness and management institutions and policies;

14. *Requests* the administering Powers concerned to facilitate, when appropriate, the participation of appointed and elected representatives of Non-Self-Governing Territories in the meetings and conferences of the specialized agencies and other organizations of the United Nations system, in accordance with relevant United Nations resolutions and decisions, including resolutions and decisions of the General Assembly and the Special Committee, relating to specific Territories, so that the Territories may benefit from the related activities of those agencies and organizations;

15. *Recommends* that all Governments intensify their efforts in the specialized agencies and other organizations of the United Nations system of which they are members to accord priority to the question of providing assistance to the peoples of the Non-Self-Governing Territories;

16. *Draws the attention* of the Special Committee to the present resolution and to the discussion held on the subject at the substantive session of 2006 of the Economic and Social Council;

17. *Welcomes* the adoption by the Economic Commission for Latin America and the Caribbean of its resolutions 574 (XXVII) of 16 May 1998¹⁵⁴ calling for the necessary mechanisms for its associate members, including small island Non-Self-Governing Territories, to participate in the special sessions of the General Assembly, subject to the rules of procedure of the Assembly, to review and assess the implementation of the plans of action of those United Nations world conferences in which the Territories originally participated in the capacity of observer, and in the work of the Economic and Social Council and its subsidiary bodies;

18. *Requests* the President of the Council to continue to maintain close contact on these matters with the Chairman of the Special Committee and to report thereon to the Council;

International understanding on the management, conservation and sustainable development of all types of forests

The United Nations Forum on Forests,

Reaffirming the relevance of the forest-related commitments made in Agenda 21, in the non-legally binding Authoritative Statement of Principles for a Global Consensus on the Management, Conservation and Sustainable Development of All Types of Forests and the Johannesburg Declaration and Plan of Implementation,

Reaffirming also the importance of achieving the Millennium Development Goals within their time frame and concerned that some countries may not be in a position to do so in view of lack of adequate financial and technical resources,

Reaffirming further the Principles of the Rio Declaration on Environment and Development, in particular those relating to the sovereign right of countries to take advantage of their own resources according to their policies on environment and development as well as to the common but differentiated responsibilities of the countries, based on their historical contribution towards the degradation of the global environment,

Reaffirming the decisions of the United Nations Forum on Forests and the proposals for action identified by the Intergovernmental Panel on Forests and the Intergovernmental Forum on Forests, and welcoming ongoing efforts to implement such actions,

Reaffirming also Economic and Social Council resolution 2000/35 of 18 October 2000, which stated that the main objective of the international arrangement on forests is to promote the management, conservation and sustainable development of all types of forests and to strengthen long-term political commitment to that end; that the purpose of such an international arrangement would be to promote the implementation of internationally agreed actions on forests at the national, regional and global levels in order to provide a coherent, transparent and participatory global framework for policy implementation, coordination and development and to carry out principal functions, based on the Rio Declaration on Environment and Development, the non-legally binding Authoritative Statement of Principles for a Global Consensus on the Management, Conservation and Sustainable Development of All Types of Forests (Forest Principles), chapter 11 of Agenda 21 and the proposals for action adopted by the Intergovernmental Panel on

Forests and the Intergovernmental Forum on Forests, in a manner consistent with and complementary to existing international legally binding instruments relevant to forests,

Expressing concern about continued deforestation and forest degradation and its adverse impact on the livelihoods of over a billion people (including many of the poorest and most vulnerable), and about the need for more effective implementation of actions to facilitate the management, conservation and sustainable development of all types of forests,

Reaffirming the United Nations Forum on Forests, with the assistance of the Collaborative Partnership on Forests as the key intergovernmental mechanisms to facilitate and coordinate the implementation of sustainable forest management at the national, regional and global levels, and stressing the importance of their appropriate strengthening,

Recognizing that the implementation of policies and measures to promote the management, conservation and sustainable development of all types of forests requires significant technical and institutional capacities and substantive investments,

Noting that sufficient new and additional financial resources have yet to be channelled to support national policies and programmes aimed at the conservation, management and sustainable development of forests,

Convinced that policies and measures adopted at global, regional, subregional and national levels should enhance the capacity of countries to significantly increase the production of forest products from sustainably managed sources,

Aware that States should cooperate to promote a supportive and open international economic system that would lead to economic growth and sustainable development in all countries to better address the problems of environmental degradation and that trade policy measures for environmental purposes should not constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on international trade,

Reaffirming the special needs and requirements of low forest cover countries and other countries with fragile ecosystems,

1. *Decides* to adopt the following International Understanding on the Management, Conservation and Sustainable Development of All Types of Forests (referred to below as the "Understanding") as a voluntary instrument to enhance international cooperation and to support national, regional and subregional policies and measures, within the International Arrangement on Forests and the mandate of the United Nations Forum on Forests;

2. *Decides also* that the International Understanding on the Management, Conservation and Sustainable Development of All Types of Forests is based on the non-legally binding Authoritative Statement of Principles for a Global Consensus on the Management, Conservation and Sustainable Development of All Types of Forests;

3. *Recognizes* in the implementation of the Understanding that:

IV. Proposal of Canada

Possible elements of an international convention on forests

An international convention on forests should build on the many recommendations produced by the international dialogue of the past 15 years and, at a minimum, should:

(a) Establish the overarching objectives, fundamental principles and definitions that would provide a common understanding of sustainable forest management;

(b) Specify the obligations that parties would undertake to implement sustainable forest management, for example:

- Maintain a national forest estate as a percentage of total area
- Complete, review and update forest inventories
- Develop national frameworks of criteria and indicators for sustainable forest management
- Develop and implement national forest programmes
- Integrate traditional forest-related knowledge in forest management

- Safeguard forests, as appropriate, from fire, insects, diseases, pollution and alien species
- Apply management plans
- Complete networks of protected areas
- Strengthen transparent forest concession allocation systems
- Require environmental impact assessments for projects with likely adverse effects
- Ensure the participation of stakeholders in forest policy decisions
- Encourage industry to develop and use voluntary codes going beyond national legislation
- Support the development of certification schemes that reflect “essential” principles
- Promote research, capacity-building, education and public awareness

(c) Promote cooperation among parties and between parties and international organizations (for example, through agreements);

(d) Consider enhanced access to public and private financial resources and the transfer of environmentally sound technology to help developing countries and countries with economies in transition to meet their obligations (likely a new forest fund);

(e) Establish a compliance regime and dispute settlement process;

(f) Create a permanent governance body with the power to monitor, periodically review and recommend approaches to strengthen the effectiveness of the convention and advance its implementation through the establishment of subsidiary bodies and actions such as programmes of work;

(g) Establish a secretariat to provide coordination;

(h) Create a structure to enable periodic monitoring and reporting on global and regional progress in achieving sustainable forest management as well as peer reviews;

(i) Define its relationship to other international legally binding forest-related agreements.

High-level panel discussion on the gender dimensions of international migration

At its 38th meeting, on 25 July 2006, the Economic and Social Council decided to transmit the summary submitted by the Chairperson of the Commission on the Status of Women to the General Assembly.

High-level panel discussion on the gender dimensions of international migration

1. At its 9th meeting, on 2 March 2006, the Commission on the Status of Women held a high-level panel discussion on the theme “The gender dimensions of international migration”. The panellists were Monica Boyd, Canada Research Chair in Sociology, University of Toronto; Manuel Orozco, Senior Associate, Inter-American Dialogue, United States of America; Ndioro Ndiaye, Deputy Director-General, International Organization for Migration, Geneva; Maruja Milagros B. Asis, Director of Research and Publications, Scalabrini Migration Centre, Philippines; and Irena Omelaniuk, Migration Adviser, World Bank. The panel was moderated by Carmen María Gallardo (El Salvador), Chairperson of the Commission.

2. The high-level panel discussion provided the opportunity for the Commission to examine the multidimensional aspects of international migration from a gender perspective and to provide input to the General Assembly at its High-level Dialogue on International Migration and Development, to be held in New York on 14 and 15 September 2006.

3. Women were active participants in migration within and between countries. Statistics indicated, for example, that the proportion of women among

international migrants had reached 51 per cent in more developed regions. Women moved on their own as the principal wage earners or for family reunification purposes. Most women moved voluntarily, but women and girls were also forced to migrate owing to conflict and violence. There was increasing recognition that gender biases existed in the migration process, resulting in women's experiences being different from those of men, including in relation to exit and entry and in countries of destination. Causes and outcomes of migration could be very different for women and for men.

4. The linkages between migration and development were identified as critical. A holistic and comprehensive approach was required to address the multidimensional aspects of international migration. Poverty and lack of access to economic resources were identified as main factors influencing the propensity of women to migrate. Increased socio-economic development, including through investments in the health sector, might lead to disincentives for migration. Increased gender equality within countries of origin might also reduce women's need for and interest in migration, including for economic reasons. Perceptions about the roles of women and men, relationships within households and resource allocations determined the ability of women to make migration decisions autonomously, to contribute to decision-making on migration within the household and to access resources for migration.

5. Insufficient information was available on the impact of migration of both women and men on the families remaining in the countries of origin. A closer examination of the structural conditions, including underdevelopment and poverty, that led people to migrate and leave their families behind was needed. The importance of national policies in ensuring the welfare of those left behind was noted, and it was recommended that the High-level Dialogue on International Migration and Development give attention to that issue.

6. The empowerment of women in the migration process required the increased participation of women in migration decisions. The empowerment of migrant women should be given specific attention in migration policies and legislation. The need for countries of origin and destination to examine their exit and entry policies to determine the impact on women was noted, as well as the need for greater collaboration between ministries to ensure increased attention to gender equality and the linkages between gender equality, migration and development.

7. It was recognized that the migration of women and men was linked to specific demand for different types of labour. In some countries, the demand for labour in traditionally male-dominated jobs, for example, in construction, led to high levels of male migration. In other countries, the demand for care workers led to increased labour migration of women. Participants noted, however, that the care sector was often a precarious and unprotected sector.

8. Agreements between countries of origin and countries of destination to encourage and facilitate migration were generally economically driven. Gender equality issues were often not given attention in such agreements, which could result in negative impacts on women. The issue of "brain drain" was raised, and it was pointed out that some developing countries had experienced a huge migration of professionals, including women, to developed countries to earn higher incomes.

9. The living and working conditions of both legal and undocumented migrant women workers should be examined further, including to identify their mistreatment and abuse. Violence against women migrants was cited as a critical issue. The issue of racial discrimination, xenophobia and other forms of discrimination were also raised by some participants. Gender-sensitive rights-based approaches to migration should include promotion and protection of the rights of migrant women workers, through, for example, the development of an enabling international environment, the ratification and implementation of international legal instruments, including the labour standards of the International Labour Organization and the harmonization of national legislation. Legal frameworks should meet the needs of both States and migrants. Partnerships with trade unions and training for police and border officials were recommended. The key role of non-governmental organizations in promoting the rights of migrant women was highlighted.

10. In some countries, evidence suggested that men migrants remitted more than women because their earnings were higher. In other cases, however, women tended to remit more because the ratio of migrant women to men was higher. Women tended to be the main receivers of remittances and generally invested in education and health care for their children. Both senders and recipients of remittances faced major constraints in having access to financial institutions. Banks and other financial institutions should improve their services. Further research on gender and remittances was needed.

11. Countries of origin and countries of destination both shared responsibility for the welfare of migrant women. The need for awareness-raising on the contributions of women migrants in destination countries was highlighted. The contributions, while significant, often remained invisible because of the concentration of female migrant workers in the private sphere. The importance of fostering greater sensitivity to the diversity of cultures among migrants was also raised.

12. Attention was drawn to the need to address the social challenges related to migration in countries of destination and the need to link the social and economic aspects of migration. Migrant women themselves could play a key role in addressing social challenges. The important contribution of diaspora communities in providing support to migrant women, including in relation to integration into destination countries, was highlighted. Migrant associations and migrant non-governmental organizations could play an important role in addressing the challenges of migration.

13. Trafficking was recognized as a development issue that cut across the Millennium Development Goals, particularly the goals on poverty eradication and gender equality and the empowerment of women. The majority of trafficked women came from low-income, socially deprived circumstances, mostly in developing countries and countries with economies in transition. In countries without comprehensive social security systems, women became vulnerable to trafficking and often ended up in unregulated labour sectors.

14. The forced absence of women through trafficking led to the breakdown of families, the neglect of children and the elderly, and negative impacts on health and education. Trafficking could force children into work, denying them education and reinforcing the illiteracy and poverty cycles that hindered development efforts. It could have a negative impact on public health services, including upon the return

of victims of trafficking. It was noted that such impacts of trafficking had been researched inadequately and indicators to measure effectively the impacts on families were lacking.

15. It was recommended that organizations focusing on migration, including the International Organization for Migration, investigate the causes of trafficking and develop comprehensive indicators for cross-country analyses. Models for assessing trafficking flows, identifying early warning signals and assessing the impact of trafficking on countries of origin, including costs to public health systems, were needed. Evaluations of counter-trafficking programmes should include analyses of labour market factors and the role of recruiters. The need for effective legal measures to address trafficking in women and girls, as well as for cross-border collaboration, including on monitoring and prosecution, was also highlighted.
