## Resolutions

**2009/1**

### **Progress in the implementation of General Assembly resolution 62/208 on the triennial comprehensive policy review of operational activities for development of the United Nations system**

*The Economic and Social Council,*

*Recalling* General Assembly resolutions 62/208 of 19 December 2007 on the triennial comprehensive policy review of operational activities for development of the United Nations system and 63/232 of 19 December 2008 on operational activities for development and Economic and Social Council resolution 2008/2 of 18 July 2008 on progress in the implementation of Assembly resolution 62/208,

*Reaffirming* the importance of the comprehensive policy review of operational activities for development, through which the General Assembly establishes key system-wide policy orientations for the development cooperation and country-level modalities of the United Nations system,

*Underscoring* that there is no “one size fits all” approach to development and that development assistance by the United Nations development system should be able to respond to the varying development needs of programme countries and should be in alignment with their national development plans and strategies, in accordance with its mandates,

*Expressing serious concern also* about the lack of progress, twenty-eight years into the HIV/AIDS pandemic, in developing effective prevention technologies, including an HIV vaccine, and recognizing that ensuring sustained financial and political support for research and development over the long term will be a critical factor in finding effective prevention technologies,

**Taking stock: reviewing the implementation of the outcomes of the World Summit on the Information Society**

1. *Reaffirms* that information and communications technologies have the potential to provide new solutions to development challenges;

2. *Recognizes* that the economic downturn has led to a slowdown in investment, but at the same time notes the resilience of the information and communications technology sectors and their potential contribution to speeding up global economic recovery;

3. *Notes* that while the digital divide may be shrinking in some areas, many challenges remain with large disparities still existing in terms of access to information and communications technologies and knowledge, penetration and affordability, both between developed and developing countries and within countries and regions and, moreover, new forms of the digital divide are emerging regarding broadband and local digital content;

4. *Stresses* the need to bridge the digital divide and to ensure that the benefits of new technologies, especially information and communication technologies, are available to all, a need that poses a challenge for many countries, which are forced to choose between many competing objectives in their development planning and in demands for development funds, while having limited resources;

5. *Notes with dissatisfaction* that, for the majority of the poor, the developmental promise of science and technology, including information and communications technologies, remains unfulfilled, and emphasizes the need to effectively harness technology, including information and communications technologies, to bridge the digital divide;

6. *Recognizes* that information and communications technologies present new opportunities and challenges and that there is a pressing need to address the major impediments that developing countries face in accessing the new technologies, such as insufficient resources, infrastructure, education, capacity, investment and connectivity and issues related to technology ownership, standards and flows, and in this regard calls upon all stakeholders to provide adequate resources, enhanced capacity-building and transfer of technology to developing countries, particularly the least developed countries;

7. *Notes* that considerable efforts were undertaken and progress was made in 2008 towards the implementation of the outcomes of the World Summit on the Information Society, and that numerous activities have been reported by the different entities of the United Nations system, although various relevant activities by non-governmental actors were not reflected by the reporting mechanism in place;

8. *Takes note* of the respective reports of many United Nations entities, with their own executive summaries, submitted as inputs for the preparation of the annual report of the Secretary-General to the Commission on Science and Technology for Development and published on the website of the Commission, as mandated by the Economic and Social Council in its resolution 2007/8;

9. *Notes* the holding of the cluster of events related to the World Summit in an improved format, renamed as World Summit on the Information Society Forum 2009, organized by the International Telecommunication Union, the United Nations Educational, Scientific and Cultural Organization and the United Nations Conference on Trade and Development to facilitate the implementation of the World Summit action lines, and notes that the inclusiveness, interactivity and depth of the discussions of the Forum on the implementation of the action lines in a multi-stakeholder framework can be further enhanced;

10. *Recalls* the importance of close coordination among the leading action line facilitators and with the secretariat of the Commission;

11. *Notes* the results of the meeting on 22 May 2009 of the United Nations Group on the Information Society, which agreed, inter alia, to carry out an open consultation on financial mechanisms, as requested by the Economic and Social Council in its resolution 2008/3, and highlights the role of the Group in facilitating the implementation of the outcomes of the World Summit under the United Nations System Chief Executives Board for Coordination as requested of the Secretary-General in paragraph 103 of the Tunis Agenda for the Information Society;<sup>34</sup>

12. *Calls upon* international and regional organizations to assess and report on a regular basis on the universal accessibility of nations to information and communications technologies, with the aim of creating equitable opportunities for the growth of the information and communications technology sectors of developing countries;

13. *Notes with regret* that more than three years after the second phase of the World Summit, held in Tunis from 16 to 18 November 2005, the revised guidelines for United Nations country teams on preparing common country assessments and United Nations Development Assistance Framework still do not reflect the recommendations of the outcome documents of the Summit and do not contain a component on information and communications technology for development, and urges that the necessary coordinated action be taken for implementation of the recommendations in paragraph 100 of the Tunis Agenda;

14. *Reaffirms* the principles enunciated in the World Summit that the Internet has evolved into a global facility available to the public, that its governance should constitute a core issue of the information society agenda and that the international management of the Internet should be multilateral, transparent and democratic, with the full involvement of Governments, the private sector, civil society and international organizations and should ensure an equitable distribution of resources, facilitate access for all and ensure a stable and secure functioning of the Internet, taking into account multilingualism;

15. *Notes* the discussions in the Internet Governance Forum as a multi-stakeholder platform on public policy issues related to Internet governance,

---

<sup>34</sup> See A/60/687.

which were reflected by the Secretary-General in his report, expresses appreciation for the work done by the Chair, the secretariat and the host Governments of the Forum, and looks forward to the convening of the fourth meeting of the Forum, in Egypt in November 2009;

16. *Encourages* all stakeholders to contribute to the online consultations regarding the “desirability of the continuation” of the Internet Governance Forum, as envisaged in paragraph 76 of the Tunis Agenda, taking into consideration the stakeholders in developing areas that have been unable to get connected online, and urges the Secretary-General to take all appropriate measures to have broad-based consultations;

17. *Notes* that paragraph 80 of the Tunis Agenda refers to development of multi-stakeholder processes at the national, regional and international levels;

18. *Recognizes* the contribution of the World Telecommunication Standardization Assembly 2008 towards enhanced cooperation;

19. *Notes* the conclusion of the Secretary-General on the basis of performance reports from ten organizations relevant to Internet governance that, while the efforts made varied in nature among the organizations, the performance reports suggest that the call in the Tunis Agenda for enhanced cooperation has been taken seriously by these organizations, and requests the Secretary-General to report to the Economic and Social Council through the Commission on the progress made towards enhanced cooperation;

20. *Notes* that topics that were not central at the first and second phases of the World Summit in 2003 and 2005 continue to emerge, such as the potential of information and communications technologies to combat climate change, the protection of online privacy and the empowerment and protection, particularly against cyberexploitation and abuse, of vulnerable groups of society, in particular children and young people;

21. *Notes* that a rising level of Internet penetration alone does not necessarily guarantee an information society for all, and that the information society requires complementary efforts and funds to make access affordable and develop skills to make use of the services and equipment and develop local content;

22. *Notes* the contribution of the Global Alliance for Information and Communication Technologies and Development to the twelfth session of the Commission;

23. *Welcomes* the efforts undertaken by Tunisia, host of the second phase of the World Summit, to organize annually the ICT4All Forum and technological exhibition as a platform to promote a dynamic business environment for the information and communications technology sector worldwide;

24. *Calls upon* all States, in building the information society, to take steps with a view to avoiding, and to refrain from taking, any unilateral measure not in accordance with international law and the Charter of the United Nations that impedes the full achievement of economic and social development by the population of affected countries and that hinders their well-being;

### **The road ahead**

26. *Calls upon* all stakeholders to assist developing countries in their efforts towards narrowing the digital divide, particularly with regard to access, affordability, speed in broadband, local content and data privacy;

27. *Encourages* all stakeholders to continue to cooperate on and to develop information and communications technology partnerships towards capacity-building, transfer of technology and knowledge, and research and development;

28. *Recognizes* the work of the Partnership on Measuring Information and Communication Technology for Development, its institutional strengthening and the creation of the working group to measure the economic and social impact of information and communications technologies, recalls Economic and Social Council resolution 2008/3, in which the Council acknowledged the work of the Partnership to develop indicators, and recommends that the Partnership consider the creation of benchmarks and impact indicators for further consideration by the United Nations Statistical Commission;

29. *Notes* the efforts made in developing tools to assess the global digital divide, including, inter alia, the International Telecommunication Union Information and Communication Technology Development Index;

30. *Encourages* all stakeholders to continue to focus on pro-poor information and communications technology policies and applications, including the need for access to broadband at the grass-roots level, with a view to narrowing the digital divide between and within countries;

31. *Encourages* all stakeholders to increase efforts to implement the information and communications technology accessibility concept as contained in article 9 of the Convention on the Rights of Persons with Disabilities;<sup>35</sup>

32. *Calls on* all stakeholders, in the interest of future generations, to give due attention to digital preservation, and commends the United Nations Educational, Scientific and Cultural Organization and its partners for their work on the World Digital Library, which was inaugurated on 21 April 2009;

33. *Takes note* of the importance of efforts to reduce the environmental effects of the information and communications technology sector and at the same time of the potential of information and communications technologies to reduce environmental impacts in other sectors;

34. *Recognizes* the importance of continuing efforts at the national and international levels to address privacy and security concerns in the use of information and communications technology, and encourages Governments, in cooperation with other stakeholders, to develop effective approaches in this regard;

35. *Urges* the United Nations entities still not actively cooperating in the World Summit implementation through the United Nations system and its follow-up

38. *Encourages* all relevant United Nations entities, including the regional commissions, to support the development and implementation of national e-strategies in developing and least developed countries, while encouraging international collaboration, especially South-South cooperation and North-South partnerships, for determining best practices and sharing experiences and resources;

<sup>39</sup> See CEB/2009/4, para. 58.

1. *Invites* the Secretary-General to initiate a process to develop and make available a guide for United Nations personnel in the preparation of United Nations Development Assistance Frameworks and common country assessments and for relevant stakeholders in the preparation of poverty reduction strategy papers, identifying opportunities that science, technology and innovation can provide at the country level towards eradication of poverty and achievement of the Millennium Development Goals;

2. *Decides* to make the following recommendations for consideration by national Governments, the Commission on Science and Technology for Development and the United Nations Conference on Trade and Development:

(a) Governments are encouraged to take into account the findings of the Commission and undertake the following actions:

(i) Mainstream science and technology promotion and investment into their national development plans;

(ii) Formulate and implement policies and programmes to:

a. Strengthen science and mathematics education and mentorship for students in primary and secondary schools;

b. Expand opportunities for science, technology and engineering education and research for their population, especially women and particularly in the emerging technologies such as biotechnology and nanotechnology, as appropriate;

c. Provide, where possible, suitable working conditions for their scientific, technological and engineering talent, especially young graduates and women, in order to prevent brain drain;

d. Develop mechanisms, including innovative solutions for expanding rural power supply, and the provision of broadband access to poor communities in rural areas not covered by market-driven investment to ensure access to science, technology and engineering for women, youth, the rural poor and other marginalized groups in all countries;

e. Promote research and development in scientific, technological and engineering fields, which supports, inter alia, grass-roots food production and entrepreneurial activities of the rural population;

f. Strengthen, as appropriate, linkages between the private sector, academia and financial institutions and incentives for commercialization of research and development by promoting entrepreneurship, increased venture capital funding, the establishment of technology parks and incubators and greater international collaboration;

g. Increase the number of full-time researchers in science, technology and engineering;

(iii) Create innovative funding strategies and compensation and reward structures in academic and research institutions to provide incentives for scientific and technological talent to remain within their countries and promote research directed to addressing national and regional development challenges;

(iv) Establish international needs-based partnerships, where countries and their private sectors can collaborate on research and development, including the commercialization of research results, to address similar development challenges, especially those related to the areas of health, agriculture, conservation, sustainable use of natural resources and environmental management, energy, forestry and the impact of climate change;

(v) Develop a culture of innovation and entrepreneurship, support the development of technological capabilities in small and medium-sized enterprises and promote incubators for promising technologies;

(vi) Launch campaigns to raise awareness of the importance of innovation for wealth creation and national welfare through mass media and high-profile awards;

(vii) Reaffirm the essential role that official development assistance plays as a complement to other sources of financing for development and fulfil the internationally agreed commitments regarding official development assistance in order to contribute to the efforts of the developing countries in building their indigenous capabilities in science and technology;

(viii) Make considered decisions to balance short-term and long-term science, technology and innovation goals and policies, evaluating the advantages and disadvantages of procuring or licensing technologies, as compared with producing them indigenously;

(ix) Focus national efforts, when facing a generally low level of science, technology and innovation capacity, on building and strengthening indigenous scientific, technical, vocational and engineering capacities to select and use existing knowledge resources, in order to create jobs, generate wealth and achieve the Millennium Development Goals;

(b) The Commission on Science and Technology for Development is encouraged to:

(i) Play the role of torch-bearer for innovation and innovation-oriented planning and support efforts by national Governments to integrate science, technology and innovation into national development strategies by providing a forum for developing countries, the international community, the science, technology and innovation policy research community and other interested parties to:

a. Share and analyse available empirical evidence on technological earning and science, technology and innovation policy impacts;

b. Identify critical gaps in “innovation system” understanding that the policy research community might usefully address;

c. Provide a forum to share best practices and information on new technologies, financing mechanisms and regulatory measures for providing broadband connectivity in their respective communities, as well as a range of access strategies and technologies to supplement broadband Internet access and support all levels of socio-economic activity in a country, with a focus on reaching women and the population in rural areas;

(ii) Explore the possibility of organizing an Internet-based science, technology and innovation collaborative network, in conjunction with the United Nations Conference on Trade and Development, the regional commissions and other appropriate stakeholders, which could promote regional and global cooperation by collecting information related to science, technology and engineering capacity-building in education, research and innovation, technology development and transfer, prospects for commercialization of knowledge-based products, opportunities for collaboration and joint ventures and related issues, and could also serve as a repository of regional and subregional initiatives that could encourage further use of the Internet by all interested stakeholders;

(c) The United Nations Conference on Trade and Development is encouraged to:

(i) Reaffirm its mandate in respect of science and technology for development and place greater emphasis on the role of innovation within its mandate;

(ii) Improve the existing collaboration on science and technology for development within the United Nations system, particularly with the United Nations Educational, Scientific and Cultural Organization, the Commission on Science and Technology for Development and the regional commissions and with other appropriate stakeholders, including the World Bank;

(iii) Continue providing its expertise and analytical skills for science, technology and innovation policy reviews and by organizing training sessions, particularly for African countries, aimed at providing information-based policy recommendations and proposed action plans to assist developing countries with their specific needs and circumstances;

(iv) Develop a clearing house for common development challenges that can be addressed through scientific, technological and innovation-related issues, including financing and regulation, and convene meetings of representatives of developing countries with similar concerns to explore concrete ways of engaging and partnering in solutions;

(v) Collaborate with less-developed countries to create conditions that make them attractive to foreign direct investment in science and technology, including information and communications technologies;

(vi) Develop a training programme for sharing best practices on science, technology and innovation capacity-building in developing countries, using extrabudgetary resources;

(vii) Continue to assist African countries in their efforts to build science, technology and innovation capacities through training and workshops, particularly in the areas of biotechnology and cybersecurity, and invite donors to support the network of centres of excellence, currently sponsored by the Government of Italy, and expand it to include other regions.

strengthened and more effective intergovernmental inclusive process to carry out the financing for development follow-up and requested the Economic and Social Council to consider that matter during its spring meeting and at its substantive session of 2009, in consultation with all relevant stakeholders, with a view to making appropriate and timely recommendations for final action by the General Assembly as early as possible in its sixty-fourth session,

*Taking note* of the summary by the President of the Economic and Social Council of the special high-level spring meeting of the Council with the World Bank, the International Monetary Fund, the World Trade Organization and the United Nations Conference on Trade and Development, held in New York on 27 April 2009,<sup>142</sup>

*Mindful* that Member States and other stakeholders have put forward concrete proposals on the subject of strengthening the financing for development follow-up process,

*Having considered* the suggestions and proposals contained in the note by the Secretary-General entitled “Coherence, coordination and cooperation in the context of the implementation of the Monterrey Consensus and the Doha Declaration on Financing for Development”, prepared for the special high-level spring meeting,<sup>143</sup>

1. *Reaffirms* the importance of staying fully engaged, nationally, regionally and internationally, in ensuring proper and effective follow-up to the implementation of the Monterrey Consensus,<sup>144</sup> as reaffirmed in the Doha Declaration on Financing for Development,<sup>141</sup> and of continuing unremitting efforts to build bridges between all relevant stakeholders within the holistic agenda of the financing for development process;

2. *Reiterates* the role played by the United Nations as a focal point for the financing for development follow-up and the need to maintain this role to ensure the continuity and dynamism of the process, while reaffirming the need to further intensify the engagement of all stakeholders, including the United Nations system, the World Bank, the International Monetary Fund and the World Trade Organization, in the follow-up and implementation of the commitments made at Monterrey and Doha;

3. *Also reiterates* that maintaining a comprehensive and diverse multi-stakeholder follow-up process, including with civil society and the private sector, is critical, recognizes the core responsibility of all participants in the financing for development process to exercise ownership of it and to implement their respective commitments in an integrated fashion, including through the continued engagement of all relevant ministries, in particular ministries of development, finance, trade and foreign affairs, also recognizes that an integrated treatment of financing for development issues in national development plans is also important in enhancing national ownership and implementation of financing for development, and further recognizes that the international community should continue to draw upon the expertise, data and analysis available in multiple forums,

while enhancing information-sharing and dialogue between the various United Nations and non-United Nations bodies that monitor progress on financing for development issues, while noting that there is substantial room to enhance the sharing of best practices;

4. *Reaffirms* the need for a strengthened and more effective intergovernmental inclusive process to carry out the financing for development follow-up, to review progress in the implementation of commitments, identify obstacles, challenges and emerging issues, and propose concrete recommendations and actions;

5. *Emphasizes* that the financing for development follow-up process should encompass a continuum of events, each contributing and feeding into the next, ensuring the holistic nature of the process and making better and more effective use of existing mechanisms and resources;

6. *Recommends* to the General Assembly in this regard the following modalities for a strengthened and more effective intergovernmental process for carrying out the financing for development follow-up:

(a) The special high-level spring meeting of the Economic and Social Council with the international financial and trade institutions could last, from the existing one day, for up to two days, and should normally be held before the spring meetings of the Bretton Woods institutions and be timed appropriately, at least five weeks before those meetings, so as to meet the needs of all parties and be conducive to high-level participation, with discussions at the first segment to concentrate on a topic of current interest, to be determined by the President of the Council in consultation with the participants, and the second segment to be organized under the overall theme of “Coherence, coordination and cooperation in the context of the implementation of the Monterrey Consensus and the Doha Declaration on Financing for Development” and to include a holistic review of the Monterrey Consensus, with special emphasis on one or two topics to be determined in advance of the meeting by the President of the Council in consultation with the participants; the meeting will result in a President’s summary, which should clearly identify key elements of the discussion and be formally presented to all the participants, including the major institutional stakeholders, as appropriate, in a timely manner; increased interaction and coordination at the staff level with the institutions involved, prior to the holding of the Council’s special high-level spring meeting, including the possibility of appropriate preparatory sessions, are especially encouraged; the President of the Council, in consultation with Member States, is encouraged to continue to work with the appropriate representatives of the Bretton Woods institutions, the World Trade Organization and the United Nations Conference on Trade and Development to improve, inter alia, the format of the Council’s high-level spring meeting;

(b) The Economic and Social Council should continue to strengthen its role in promoting coherence, coordination and cooperation in the implementation of the Monterrey Consensus and the Doha Declaration on Financing for Development and as a forum for multi-stakeholder involvement; consideration of the agenda item on financing for development should be given more prominence in the work of the annual substantive session of the Council and should be allotted up to two full days within its four-week annual session, and the Council should normally adopt a substantive resolution, taking into account, inter alia, the outcome of the preceding high-level spring meeting;

(c) The Economic and Social Council recommends that the General Assembly should also give more prominence to its annual agenda item entitled “Follow-up to and implementation of the outcome of the 2002 International Conference on Financing for Development and the 2008 Review Conference”, and may also wish to reaffirm the importance of its biennial high-level dialogues on financing for development as the intergovernmental focal point for the general follow-up to the 2002 International Conference on Financing for Development and the 2008 Review Conference, placing a particular emphasis on new challenges and emerging issues;

(d) The Secretariat should continue to ensure that all documents relevant to the agenda item on financing for development are made available in a timely manner, both to the Economic and Social Council and to the General Assembly; to further enhance the quality of its reports, the Secretariat should continue to make full use of all existing analytical work and relevant data, including those available from the institutional stakeholders and the specialized agencies;

(e) Participation in this strengthened process will continue to be open to all the relevant financing for development stakeholders, including specialized agencies, funds and programmes, regional commissions, other international organizations, civil society entities and business sector groups, through application of the traditional financing for development accreditation and participation modalities and prominent experts may also be invited to provide inputs to the discussions;

(f) Seminars, panel discussions and briefings may be organized as part of the preparations for, and contribution to, the above events in order to raise visibility, attract interest and participation and promote substantive discussions on a continuing basis; there could be the reinitiation of a programme of multi-stakeholder consultations, including civil society and the private sector, by the Financing for Development Office of the Department of Economic and Social Affairs of the Secretariat, drawing on a broad range of financing for development-related topics, as well as a wider and more effective use of the financing for development web page as an information tool;

(g) The Department of Economic and Social Affairs, and especially the Financing for Development Office, are encouraged to maintain a regular interaction at the staff level with the World Bank, the International Monetary Fund, the World Trade Organization and the United Nations Conference on Trade and Development, in the interest of greater coherence, coordination and cooperation, each acting in accordance with its respective intergovernmental mandate, for their mutual benefit;

7. *Reiterates its appeal* to Member States and other potential donors to consider contributing generously to the Financing for Development Trust Fund, which would facilitate the carrying out of many of the activities outlined above;

8. *Underscores* that the modalities of the financing for development follow-up process should be reviewed, as appropriate, within a time frame to be determined by the General Assembly.

2. *Notes* the economic and social progress of many least developed countries in recent years, which has led to the fact that a number of countries are proceeding towards graduation from the list of least developed countries and that some of them are on track to achieving the growth and investment targets of the Programme of Action by 2010;

3. *Remains concerned*, however, about the uneven and insufficient progress achieved in the implementation of the Programme of Action for the Least Developed Countries for the Decade 2001-2010<sup>146</sup> at a time when the international community has embarked on the preparation for the Fourth United Nations Conference on the Least Developed Countries, which will undertake a comprehensive appraisal of its implementation, and stresses the urgent need to address areas of weakness in its implementation and the continued precarious socio-economic situation in many least developed countries through a strong commitment to the objectives, goals and targets of the Programme of Action;

4. *Expresses its deep concern* that the number of people living in extreme poverty remains significantly high in the least developed countries, while an increasing number of people are at risk of malnutrition, in particular children and women, and recognizes that there are important linkages between development, poverty eradication and gender equality;

5. *Expresses concern* about the severe impact of the global economic and financial crisis on developing countries and recognizes that the social and economic progress achieved during recent years, particularly on the internationally agreed development goals, including the Millennium Development Goals, is now threatened in developing countries, particularly the least developed countries, and resolves to strive to combine short-term responses to meet the immediate impact of the financial and economic crisis, particularly on the most vulnerable countries, with medium- and long-term responses;

6. *Encourages* the United Nations system organizations, the Bretton Woods institutions, bilateral and multilateral donors and other development partners, in view of the global crises, to assist the least developed countries in respect of translating goals and targets of the Programme of Action into concrete actions in the light of their national development priorities and to collaborate with and provide support to, as appropriate, the relevant national development forums and follow-up mechanisms;

7. *Reaffirms* that progress in the implementation of the Programme of Action will require effective implementation of national policies and priorities for the sustained economic growth and sustainable development of the least developed countries, as well as strong and committed partnership between those countries and their development partners;

<sup>152</sup> A/64/80-E/2009/79.

8. *Underlines* the fact that, for the further implementation of the Programme of Action, the least developed countries and their development partners must be guided by an integral approach, a broader genuine partnership, country ownership, market considerations and results-oriented actions encompassing:

- (a) Fostering a people-centred policy framework;
- (b) Ensuring good governance at both the national and international levels as essential for the implementation of the commitments embodied in the Programme of Action;
- (c) Building human and institutional capacities;
- (d) Building productive capacities to make globalization work for the least developed countries;
- (e) Enhancing the role of trade in development;
- (f) Reducing vulnerability and protecting the environment;
- (g) Mobilizing financial resources;

9. *Urges* the least developed countries to strengthen country ownership in the implementation of the Programme of Action by, inter alia, translating its goals and targets into specific measures within their national development frameworks and poverty eradication strategies, including, where they exist, poverty reduction strategy papers, promoting broad-based and inclusive dialogue on development with relevant stakeholders, including civil society and the private sector, and enhancing domestic resource mobilization and aid management;

10. *Urges* development partners to fully implement, in a timely manner, commitments in the Programme of Action and to exercise individual best efforts to continue to increase their financial and technical support for its implementation;

11. *Reiterates* its invitation to all development and trading partners to support the implementation of the transition strategy of countries graduating from the list of least developed countries, to avoid any abrupt reductions in either official development assistance or technical assistance provided to the graduated country and to consider extending to the graduated country trade preferences previously made available as a result of least developed country status or reducing them in a phased manner;

12. *Welcomes with appreciation* the generous offers of the Governments of Austria and Turkey to host the Fourth United Nations Conference on the Least Developed Countries, to be held in 2011;

13. *Reiterates* the decision of the General Assembly in its resolution 63/227 that the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States would be the focal point for the preparations for the Fourth United Nations Conference on the Least Developed Countries in accordance with mandates given in Assembly resolution 56/227 of 24 December 2001, to ensure that those preparations are carried out effectively and to mobilize and coordinate the active involvement of the organizations of the United Nations system;

14. *Reiterates also its invitation* to the organs, organizations and bodies of the United Nations system and other relevant multilateral organizations to provide

full support to and cooperation with the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States;

15. *Requests* the Secretary-General to continue to take appropriate measures for the preparation for the Fourth United Nations Conference on the Least Developed Countries as well as for the implementation of the advocacy strategy on the effective and timely implementation of the Programme of Action for the Least Developed Countries for the Decade 2001-2010,<sup>153</sup> in coordination with all relevant stakeholders;

16. *Requests also* the Secretary-General to ensure the active involvement of the organizations of the United Nations system in the preparatory process for the Conference in a coordinated and coherent manner, inter alia, by making use of the existing coordination mechanisms of the United Nations system;

19. *Reiterates* the critical importance of the participation of Government representatives from the least developed countries in the annual review of the Programme of Action by the Council, invites donor countries to continue to support the participation of two representatives from each least developed country in the annual review of the implementation of the Programme of Action, including by contributing, in an adequate and timely manner, to the special trust fund, and requests the Secretary-General to intensify his efforts to mobilize the necessary resources in order to ensure that the trust fund is adequately resourced and to provide information on the status of the trust fund;

20. *Reiterates also* its request to the Secretary-General to include least developed country issues in all relevant reports in the economic, social and related fields in order to ensure follow-up to their development in the broader context of the world economy and contribute to preventing their marginalization while promoting their further integration into the world economy;

*Gravely concerned* in this regard about Israel's continuation of settlement activities and other related measures in the Occupied Palestinian Territory, particularly in and around occupied East Jerusalem, as well as in the occupied Syrian Golan, in violation of international humanitarian law and relevant United Nations resolutions,

*Gravely concerned also* by the serious repercussions on the economic and social conditions of the Palestinian people caused by Israel's construction of the wall and its associated regime inside the Occupied Palestinian Territory, including in and around East Jerusalem, and the resulting violation of their economic and social rights, including the right to work, to health, to education, to property and to an adequate standard of living,

particular, in connection with its construction of the wall, contrary to international law, in the Occupied Palestinian Territory, including in and around East Jerusalem,

*Expressing grave concern also* over the continued policy of home demolitions and displacement of the population in and around occupied East Jerusalem in particular, as well as measures to further isolate the city from its natural Palestinian environs, including through the accelerated construction of settlements, construction of the wall and imposition of checkpoints, which have seriously exacerbated the already dire socio-economic situation being faced by the Palestinian population,

*Expressing grave concern further* about continuing Israeli military operations and the continuing Israeli policy of closures and severe restrictions on the movement of persons and goods, including humanitarian personnel as well as food, medical, fuel and other essential supplies, via the imposition of crossing closures, checkpoints and a permit regime throughout the Occupied Palestinian Territory, including East Jerusalem, and the consequent negative impact on the socio-economic situation of the Palestinian people, which remains that of dire humanitarian crisis, particularly in the Gaza Strip, where grave hardships continue to mount as a result of Israel's imposition of a blockade and siege as collective punishment of the entire civilian population,

*Deploring* the Israeli military aggression against the Gaza Strip that was launched on 27 December 2008, which caused heavy casualties among civilians, including hundreds of children and women, and widespread damage to homes, vital infrastructure, hospitals, schools and several United Nations facilities, gravely impacting the provision of vital health and social services to Palestinian women and their families, and in this regard calling for the expeditious commencement of the reconstruction process in the Gaza Strip with the assistance of the donor countries, including the disbursement of funds pledged in the International Conference in Support of the Palestinian Economy for the Reconstruction of Gaza, held in Sharm el-Sheikh, Egypt, in March 2009,

*Gravely concerned* by various reports of the United Nations and specialized agencies regarding the almost total aid dependency caused by prolonged border closures, inordinate rates of unemployment, widespread poverty and severe humanitarian hardships, including food insecurity and rising health-related problems, including high levels of malnutrition, among the Palestinian people, especially children, in the Occupied Palestinian Territory, including East Jerusalem,

*Expressing grave concern* at the increasing number of deaths and injuries of civilians, including children and women, and emphasizing that the Palestinian civilian population must be protected in accordance with international humanitarian law,

*Emphasizing* the importance of the safety and well-being of all civilians, and calling for the cessation of all acts of violence, including all acts of terror, provocation, incitement and destruction and all firing of rockets,

*Conscious* of the urgent need for the reconstruction and development of the economic and social infrastructure of the Occupied Palestinian Territory, including East Jerusalem, as well as the urgent need to address the dire humanitarian crisis facing the Palestinian people,

*Commending* the important work being done by the United Nations, the specialized agencies and the donor community in support of the economic and social development of the Palestinian people, as well as the assistance being provided in the humanitarian field,

*Stressing* the importance of national unity among the Palestinian people and emphasizing the need for the respect and preservation of the territorial integrity and unity of the Occupied Palestinian Territory, including East Jerusalem,

*Calling on* both parties to fulfil their obligations under the road map<sup>164</sup> in cooperation with the Quartet,

1. *Calls for* the lifting of all mobility restrictions imposed on the Palestinian people, including those arising from ongoing Israeli military operations and the multilayered closures system, and for other urgent measures to be taken to alleviate the desperate humanitarian situation in the Occupied Palestinian Territory, especially in the Gaza Strip;

4. *Calls upon* Israel to restore and replace civilian properties, vital infrastructure, agricultural lands and governmental institutions that have been damaged or destroyed as a result of its military operations in the Occupied Palestinian Territory;

5. *Reiterates the call* for the full implementation of the Agreement on Movement and Access of 15 November 2005, particularly the urgent and uninterrupted reopening of all crossings into the Gaza Strip, including the Rafah and Karni crossings, which is crucial to ensuring the passage of foodstuffs and essential supplies, including construction materials and adequate fuel supplies, as well as to ensuring the unhindered access of the United Nations and related agencies to and within the Occupied Palestinian Territory;

6. *Calls upon* all parties to respect the rules of international humanitarian law, and to refrain from violence against the civilian population in accordance with the Geneva Convention relative to the Protection of Civilian Persons in Time of War, of 12 August 1949;<sup>159</sup>

<sup>164</sup> S/2003/529, annex.

<sup>165</sup> See A/49/180-S/1994/727, annex, entitled "Agreement on the Gaza Strip and the Jericho Area", annex IV.

9. *Also calls upon* Israel, the occupying Power, to end immediately its exploitation of natural resources, including water and mining resources, and to cease the dumping of all kinds of waste materials in the Occupied Palestinian Territory, including East Jerusalem, and in the occupied Syrian Golan, which gravely threaten their natural resources, namely, the water and land resources, and present a serious environmental hazard and health threat to the civilian populations, and also calls upon Israel, the occupying Power, to remove all obstacles that obstruct implementation of critical environmental projects, including the sewage treatment plants in the Gaza Strip;

10. *Reaffirms* that the construction and expansion of Israeli settlements and related infrastructure in the Occupied Palestinian Territory, including East Jerusalem, and the occupied Syrian Golan, are illegal and constitute a major obstacle to economic and social development, and calls for the full cessation of all settlement and settlement-related activity, including all measures aimed at advancing the illegal settlement campaign, in compliance with relevant Security Council resolutions and international law, including the Geneva Convention on the Protection of Civilian Persons in Time of War;<sup>159</sup>

11. *Also reaffirms* that Israel's ongoing construction of the wall in the Occupied Palestinian Territory, including in and around East Jerusalem, is contrary to international law and is isolating East Jerusalem, fragmenting the West Bank and seriously debilitating the economic and social development of the Palestinian people, and calls in this regard for full compliance with the legal obligations mentioned in the 9 July 2004 advisory opinion of the International Court of Justice<sup>163</sup> and in General Assembly resolution ES-10/15;

12. *Calls upon* Israel to comply with the provisions of the Geneva Convention on the Protection of Civilians in Time of War and to facilitate visits of the Syrian citizens of the occupied Syrian Golan whose family members reside in their mother homeland, the Syrian Arab Republic, via the Qunaitra entrance;

pave the way for the establishment of the independent Palestinian State and the achievement of a just, lasting and comprehensive peace settlement;

15. *Requests* the Secretary-General to submit to the General Assembly at its sixty-fourth session, through the Economic and Social Council, a report on the implementation of the present resolution and to continue to include in the report of the United Nations Special Coordinator an update on the living conditions of the Palestinian people, in collaboration with relevant United Nations agencies;
